Our desire for *Odyssey* 1972 was to achieve thematically an abstract concept while at the same time attempt to honestly reflect on the world of the student at Parkville Senior High. We discovered that there was perhaps no more abstract a concept than that of the idea of "world" itself. Just how many different worlds is today's high school student exposed to and influenced by?

We have all heard the old cliche "high school is preparing us for the world of tomorrow." However, in 1972 we became increasingly aware of ecology and the frightening possibility of there not being a "world of tomorrow." Parkville has made us realize that there are academic, athletic, and social worlds and that each of these has played a part in this piece of our own world. We also became aware that our world here at Parkville was no longer "babysitting" young people who had no concern for national issues and the happenings of the "adult world." Now it is our chance to constructively help shape the future world. Our 1972 *Odyssey* then reflects the many worlds of Parkville and shows our concern for and awareness of the many larger worlds.

So, enter our world of *Odyssey* 1972 and you will realize that "it's only the beginning" . . .

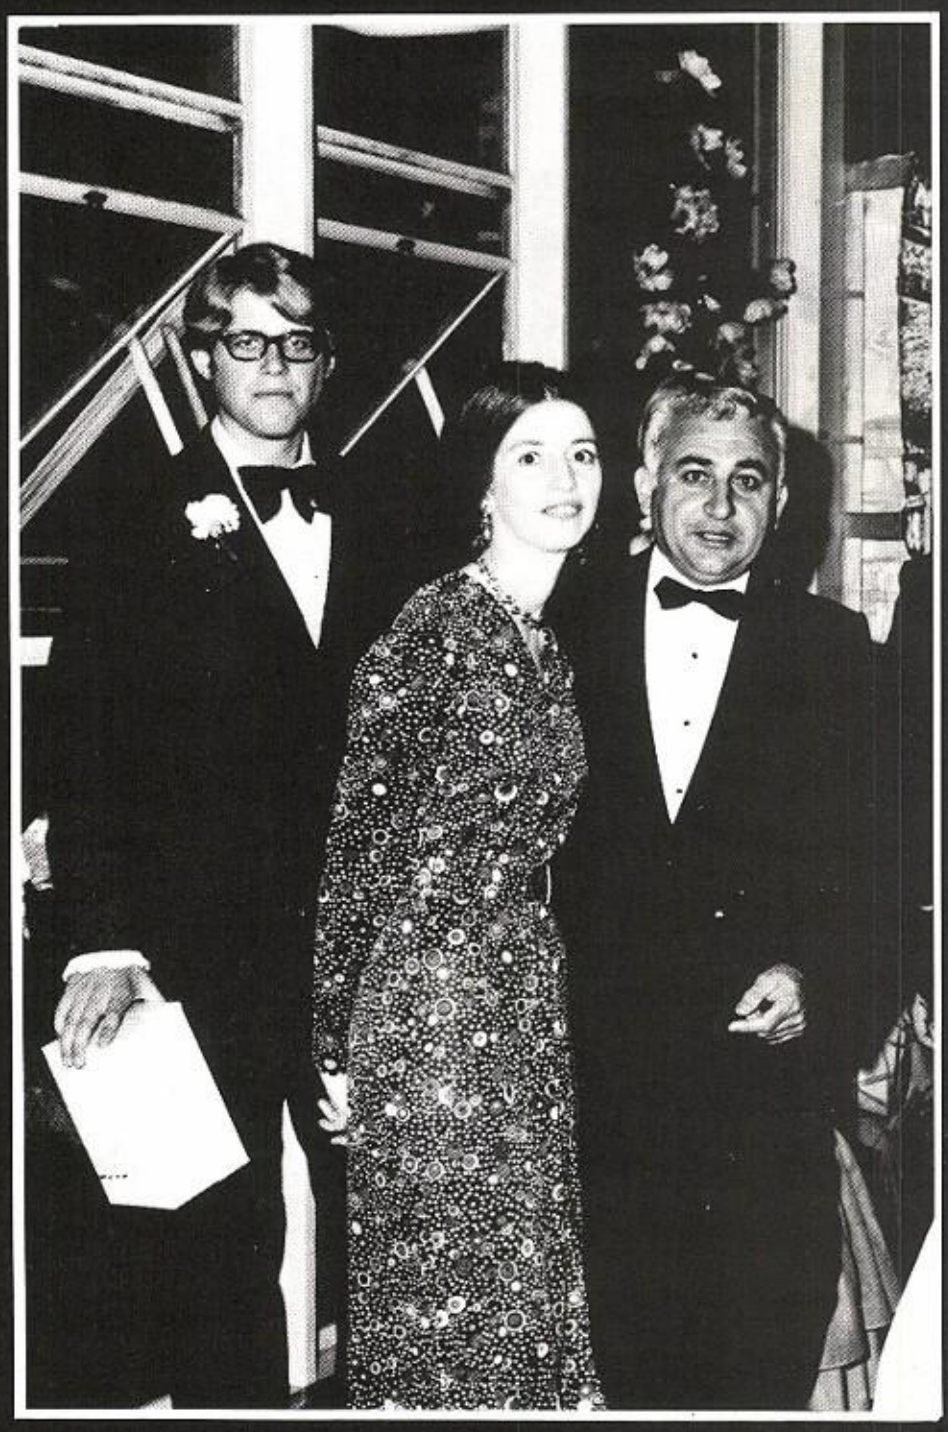
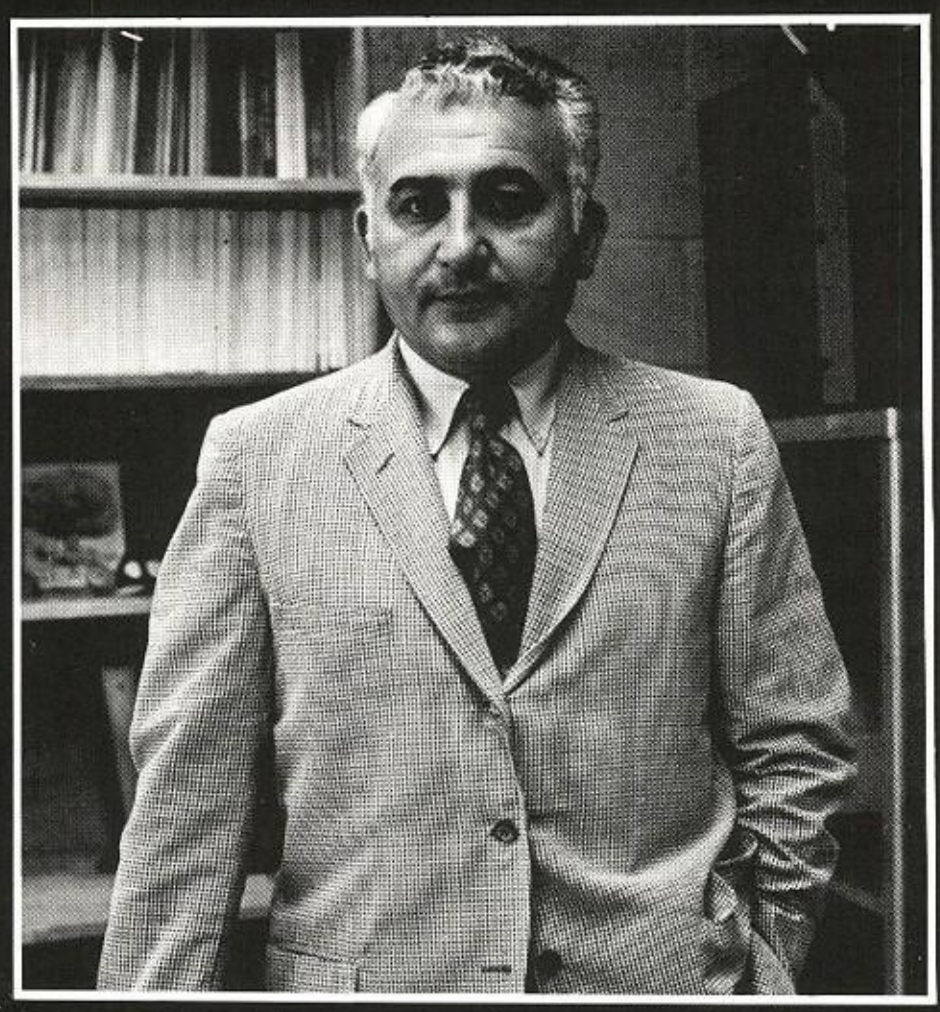
VOLUME XV

Dear Annie,
I am very glad I met you this year because you are a wonderful person, gymnast, soprano, etc, etc. I know I will see you next year, so have a wonderful summer, and good luck in everything.
Love,
Andrea

Odyssey Dedication 1972:

"Thanks Boss"





Loch Raven Senior High will be opening next year much to the relief of Parkville's faculty, student body, and community. For the past five years Parkville has been probably the most overcrowded school in Baltimore County. But even under these trying circumstances, the school has always managed to be run under an atmosphere conducive to excellent academic and extra curricular enrichment. Mr. Sgro has had more than his share of administration problems but has gained the respect and admiration of the students and faculty. We dedicate *ODYSSEY* 1972 to Mr. Sgro with great pride, affection, and gratitude for making our "world" here at Parkville a most rewarding experience during a most difficult period.

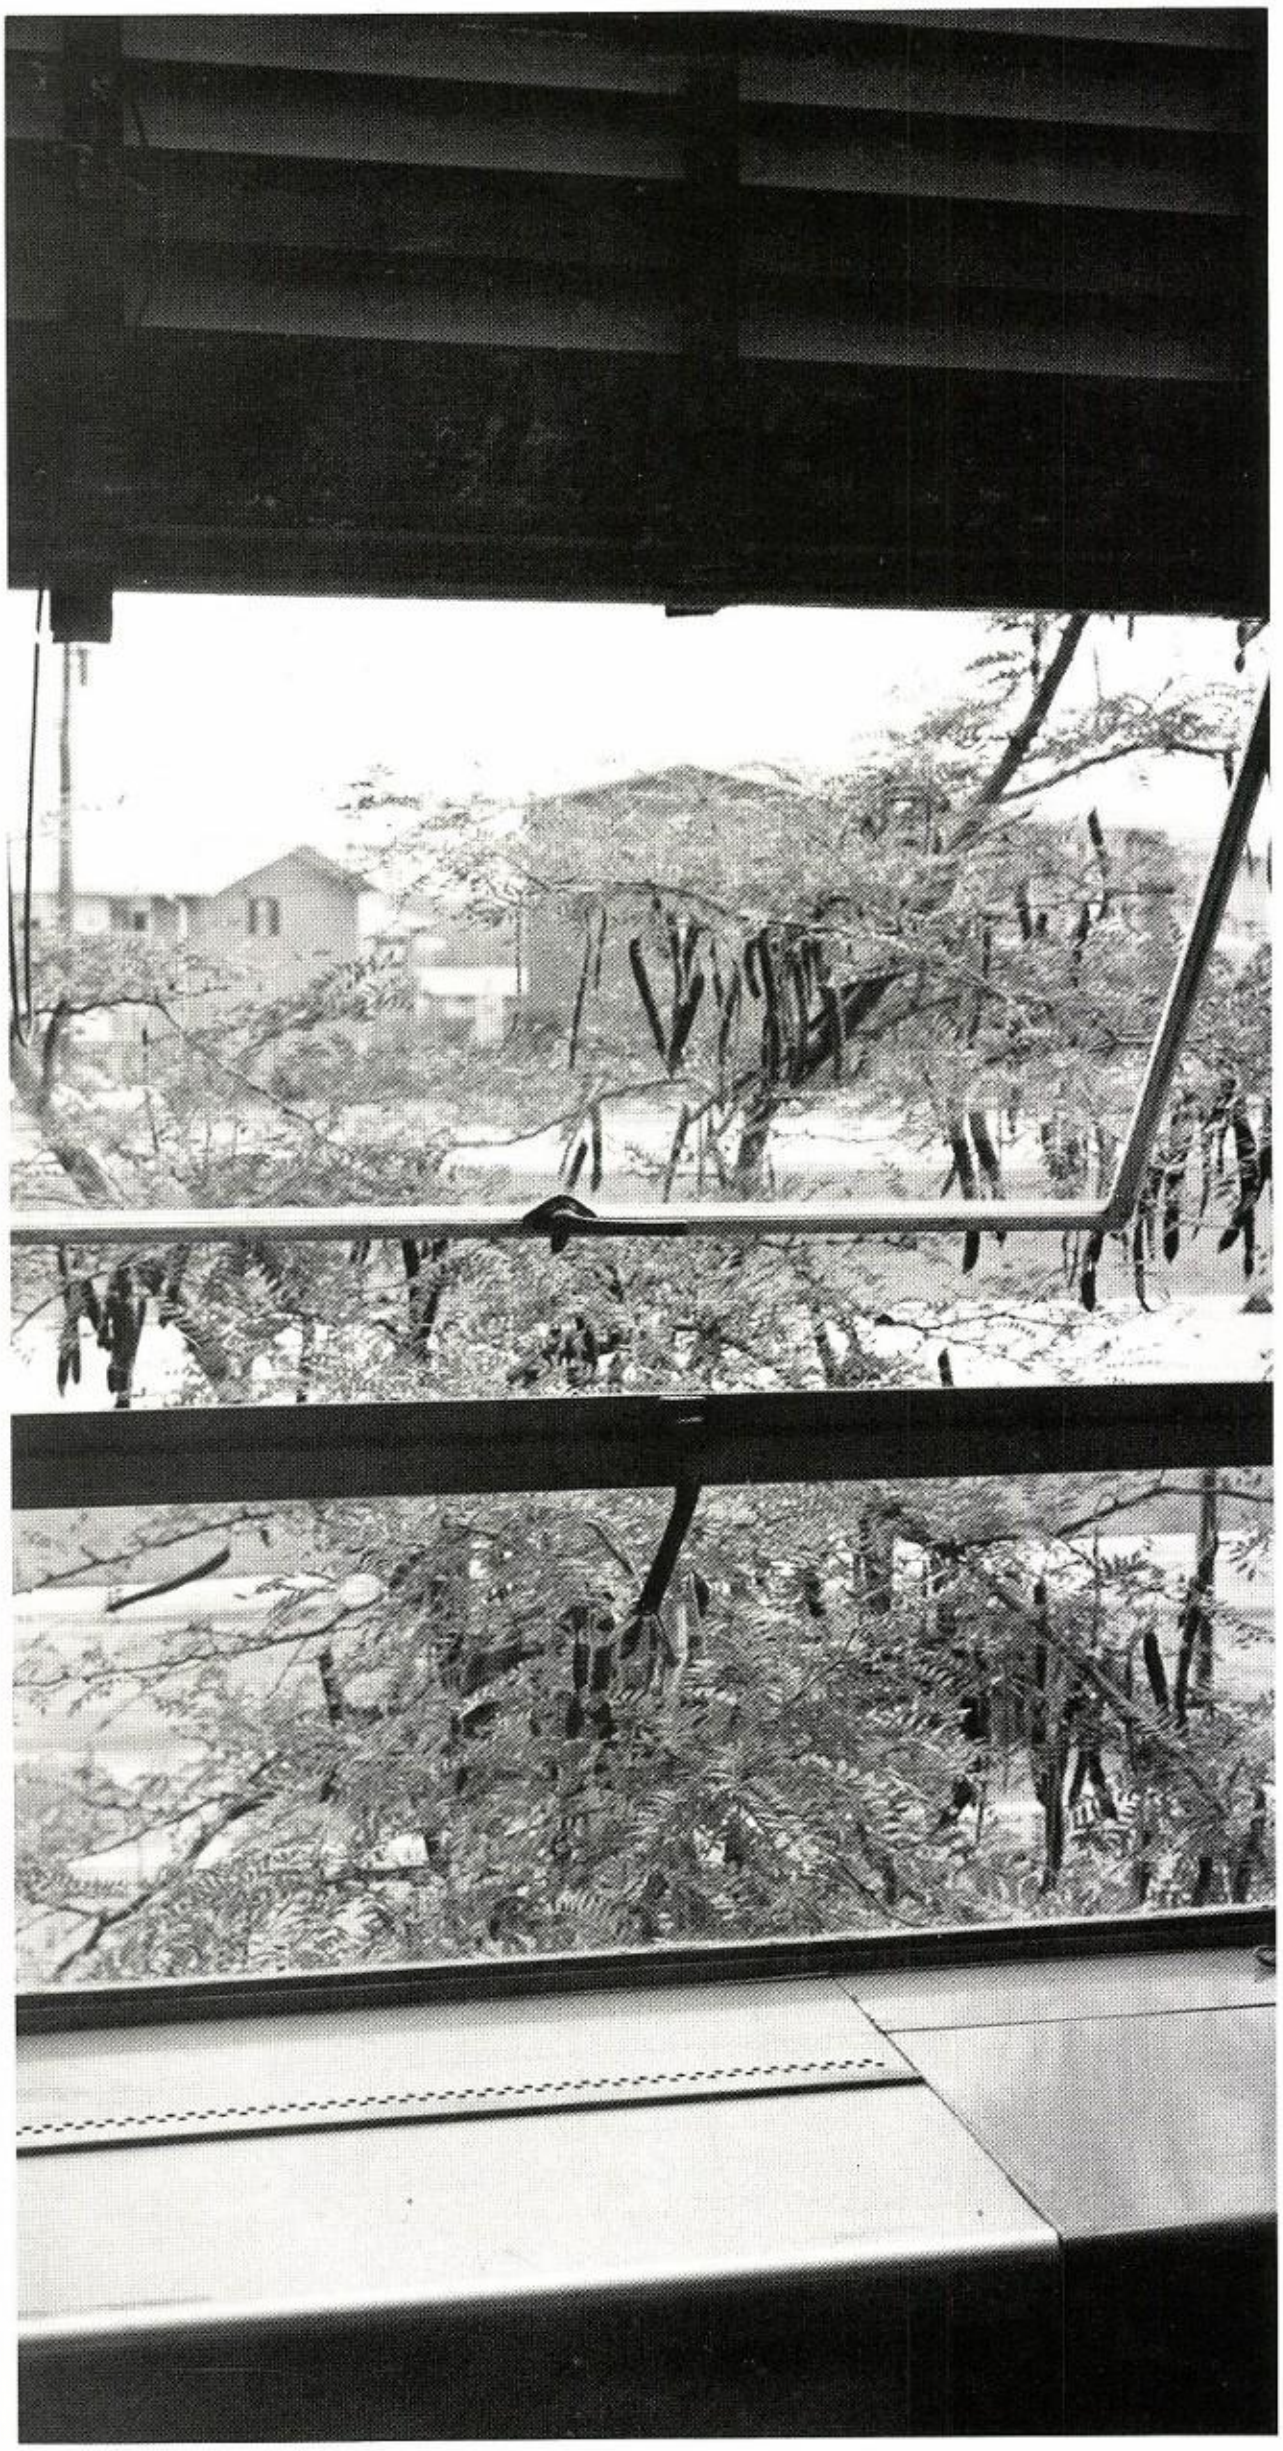
A World Of . . .

OPENING SECTION AND DIVIDERS BY:

Bonnie Watkins, Linda Taylor, Kathy Murphy, Marge Mayers



Learning . . .
Experiencing . . .
Realizing . . .

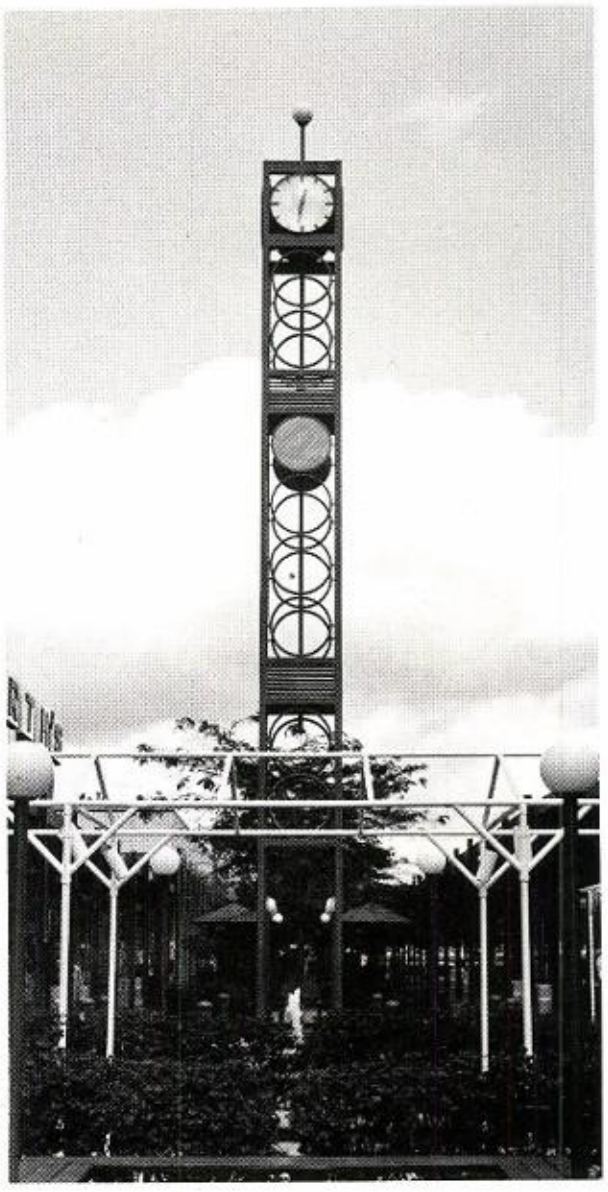
We see so many aspects of the world outside reflected within our own in the people, places, and events that surround us.

Ours is a world of contrasts . . .

There is hatred and bitterness — yet much love and a great deal of understanding.

There is discontent — many are bored and unhappy — yet there are those who are concerned and who contribute so much.

There is chaos, great confusion — yet there are peaceful places of solitude.



But perhaps the greatest disparity is within ourselves and our relationships with others. We feel many emotions and we think we are so totally involved in the sharing of life

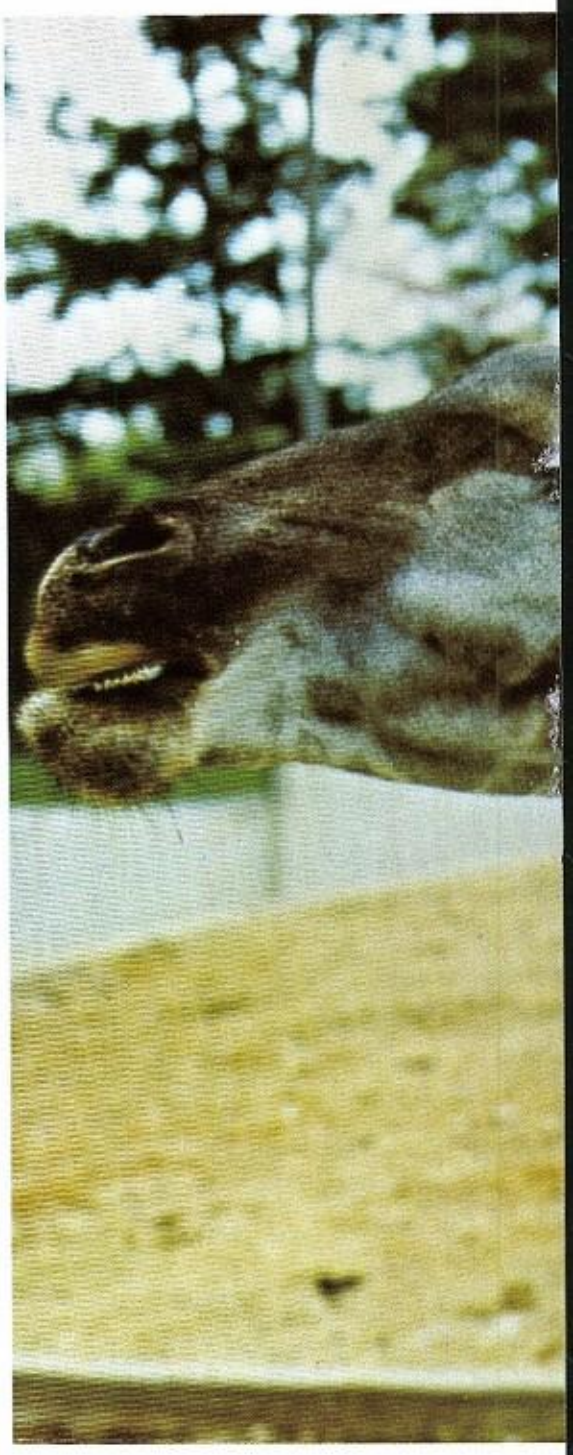
yet there are people we pass every day in the hall and never speak to or even know their names.

The real wonder of it all is how these forces, so contrasting can balance and blend to create the whole . . .

the important oneness which is Parkville.

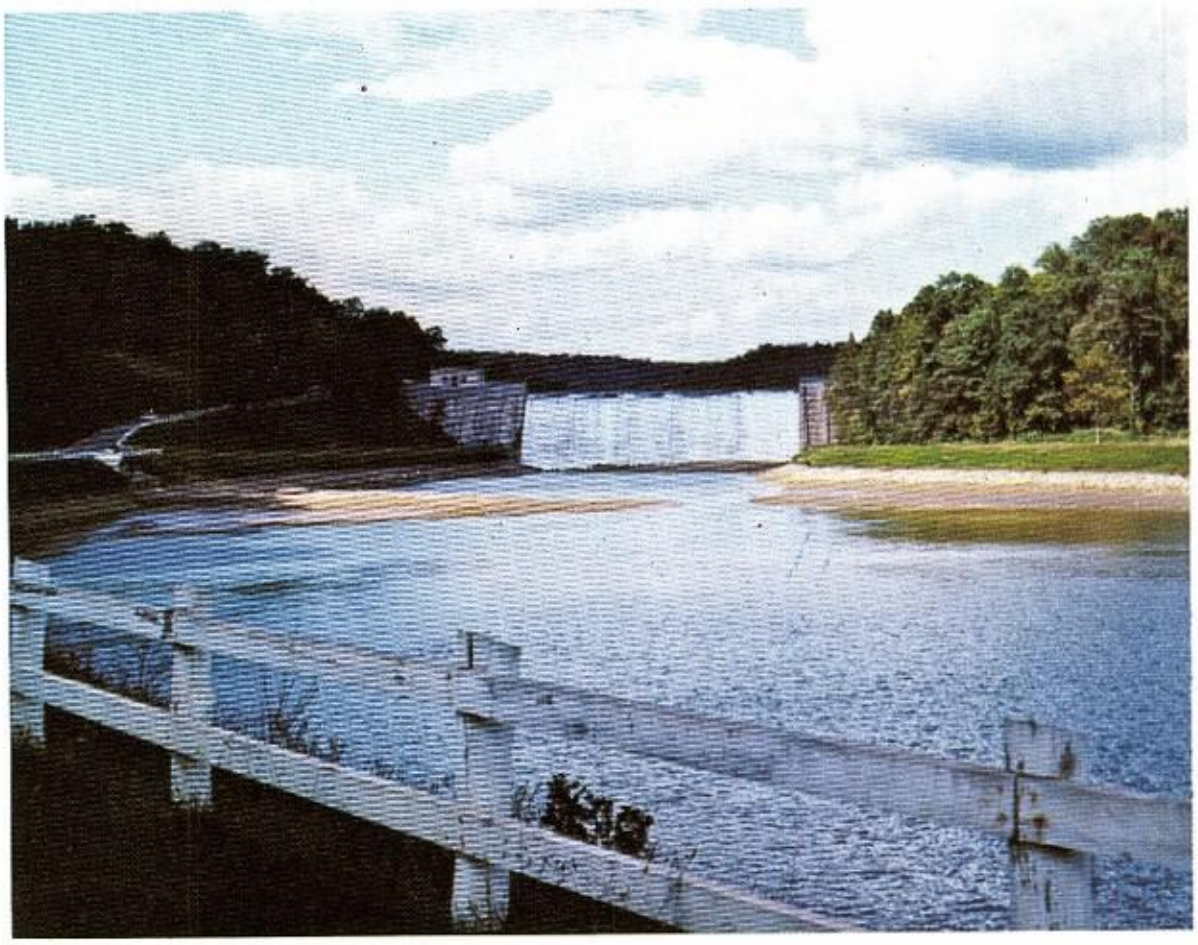
Nature

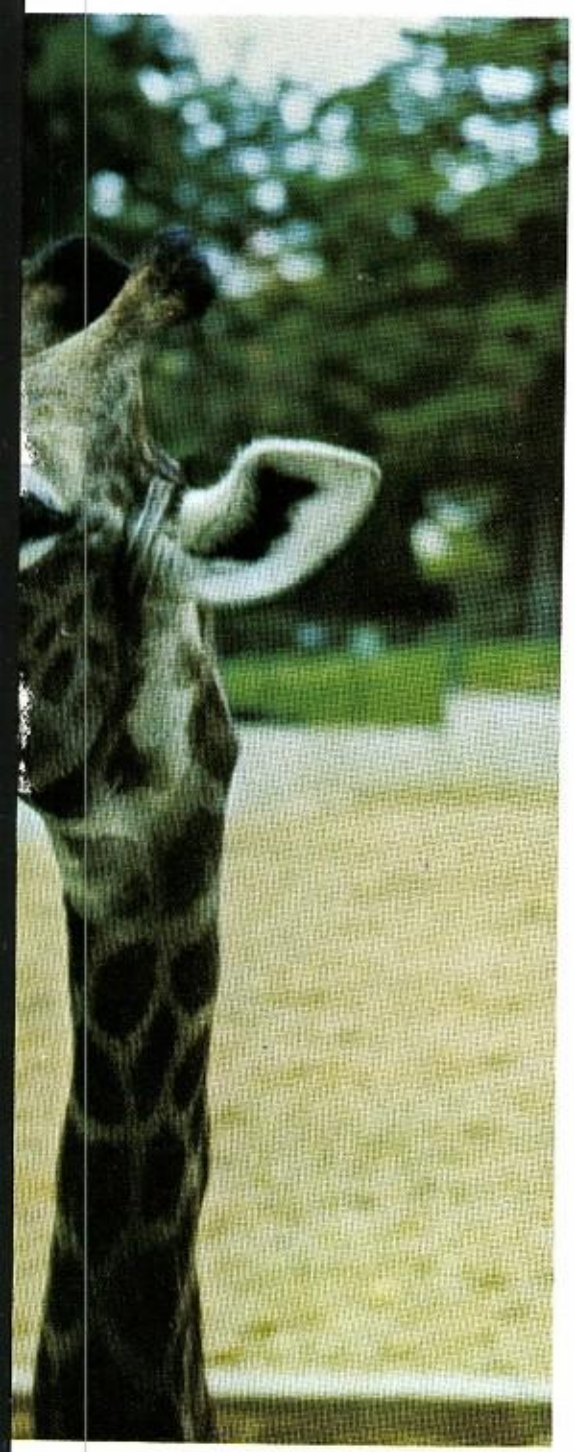
Anne
I'm so happy
I've gotten to
know you better
this year 'cause I
found out what a
nice, fun to be with
person you are
Have fun always
Stay yourself
Love,
Debbie

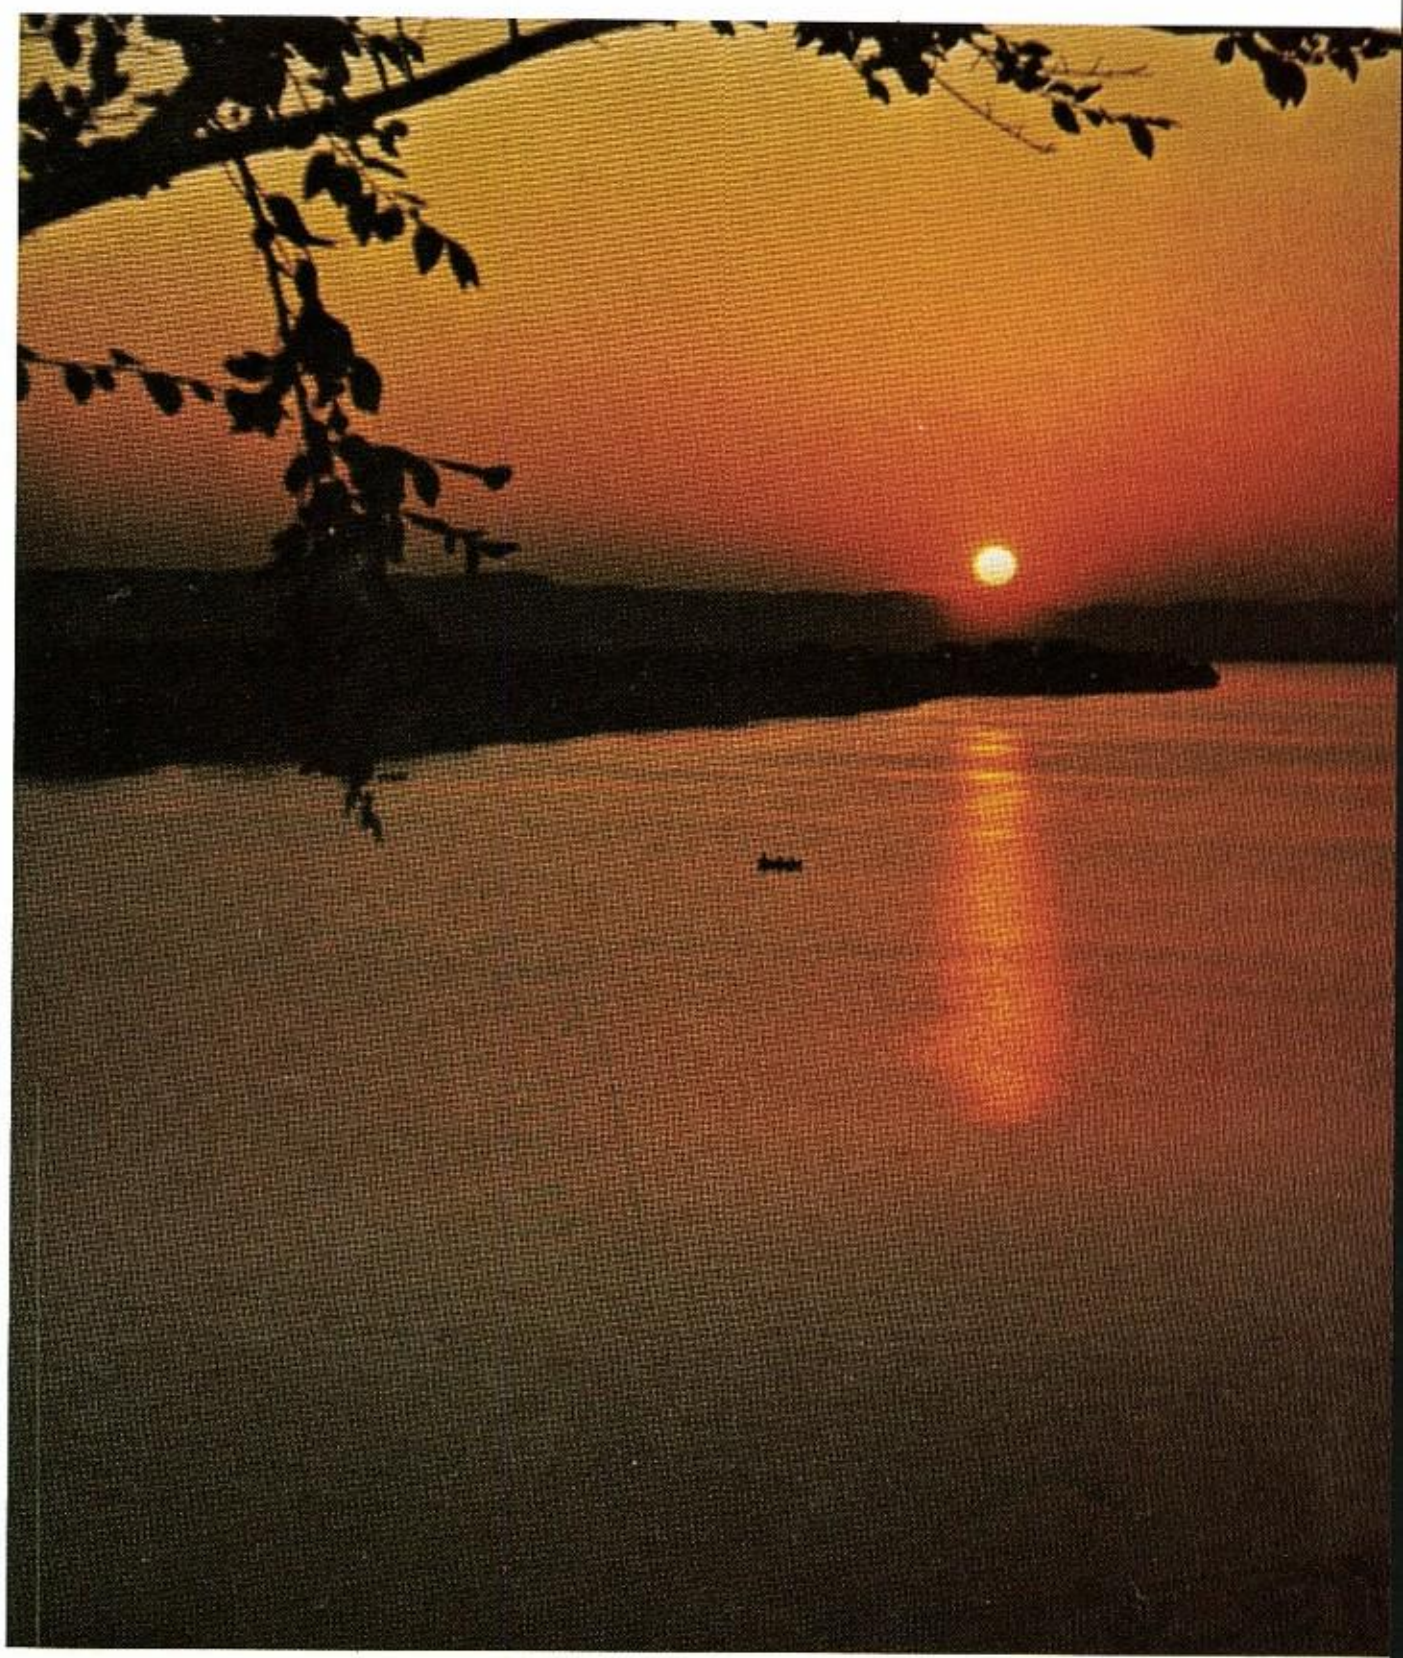


In our advanced and changing world where so many things seem unstable and unsure — nature provides the quietly existing force which steadies our lives.

In nature we find the serenity and peace of mind that we sometimes lose in dealing with the important matters of our world.

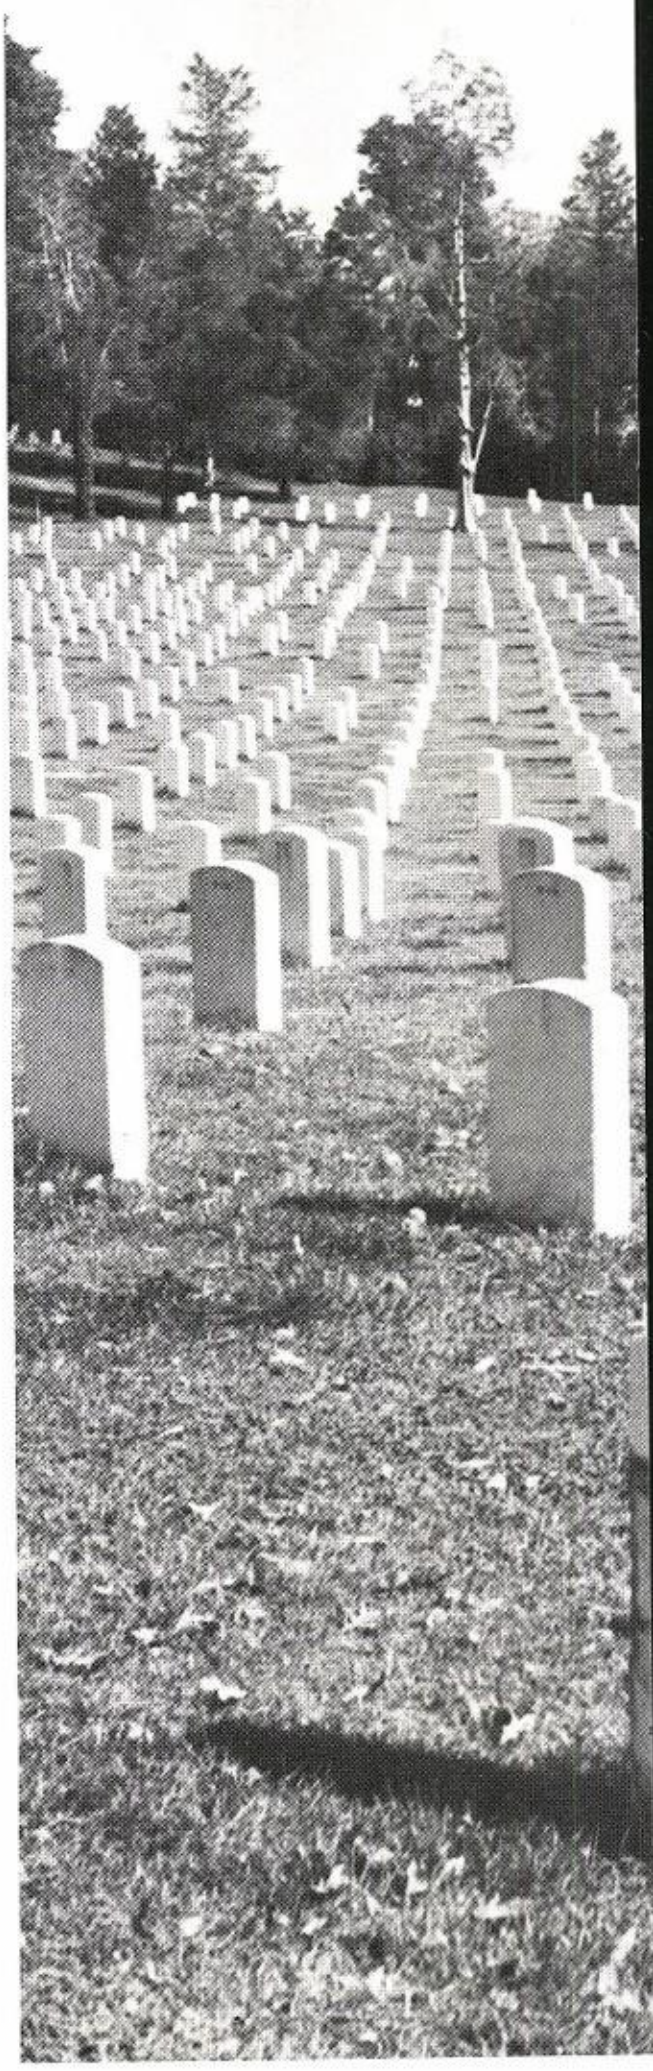






When at times there are so few things to believe and have faith in — the natural world is there with the ever constant renewal and assurance of tomorrow's dawn.

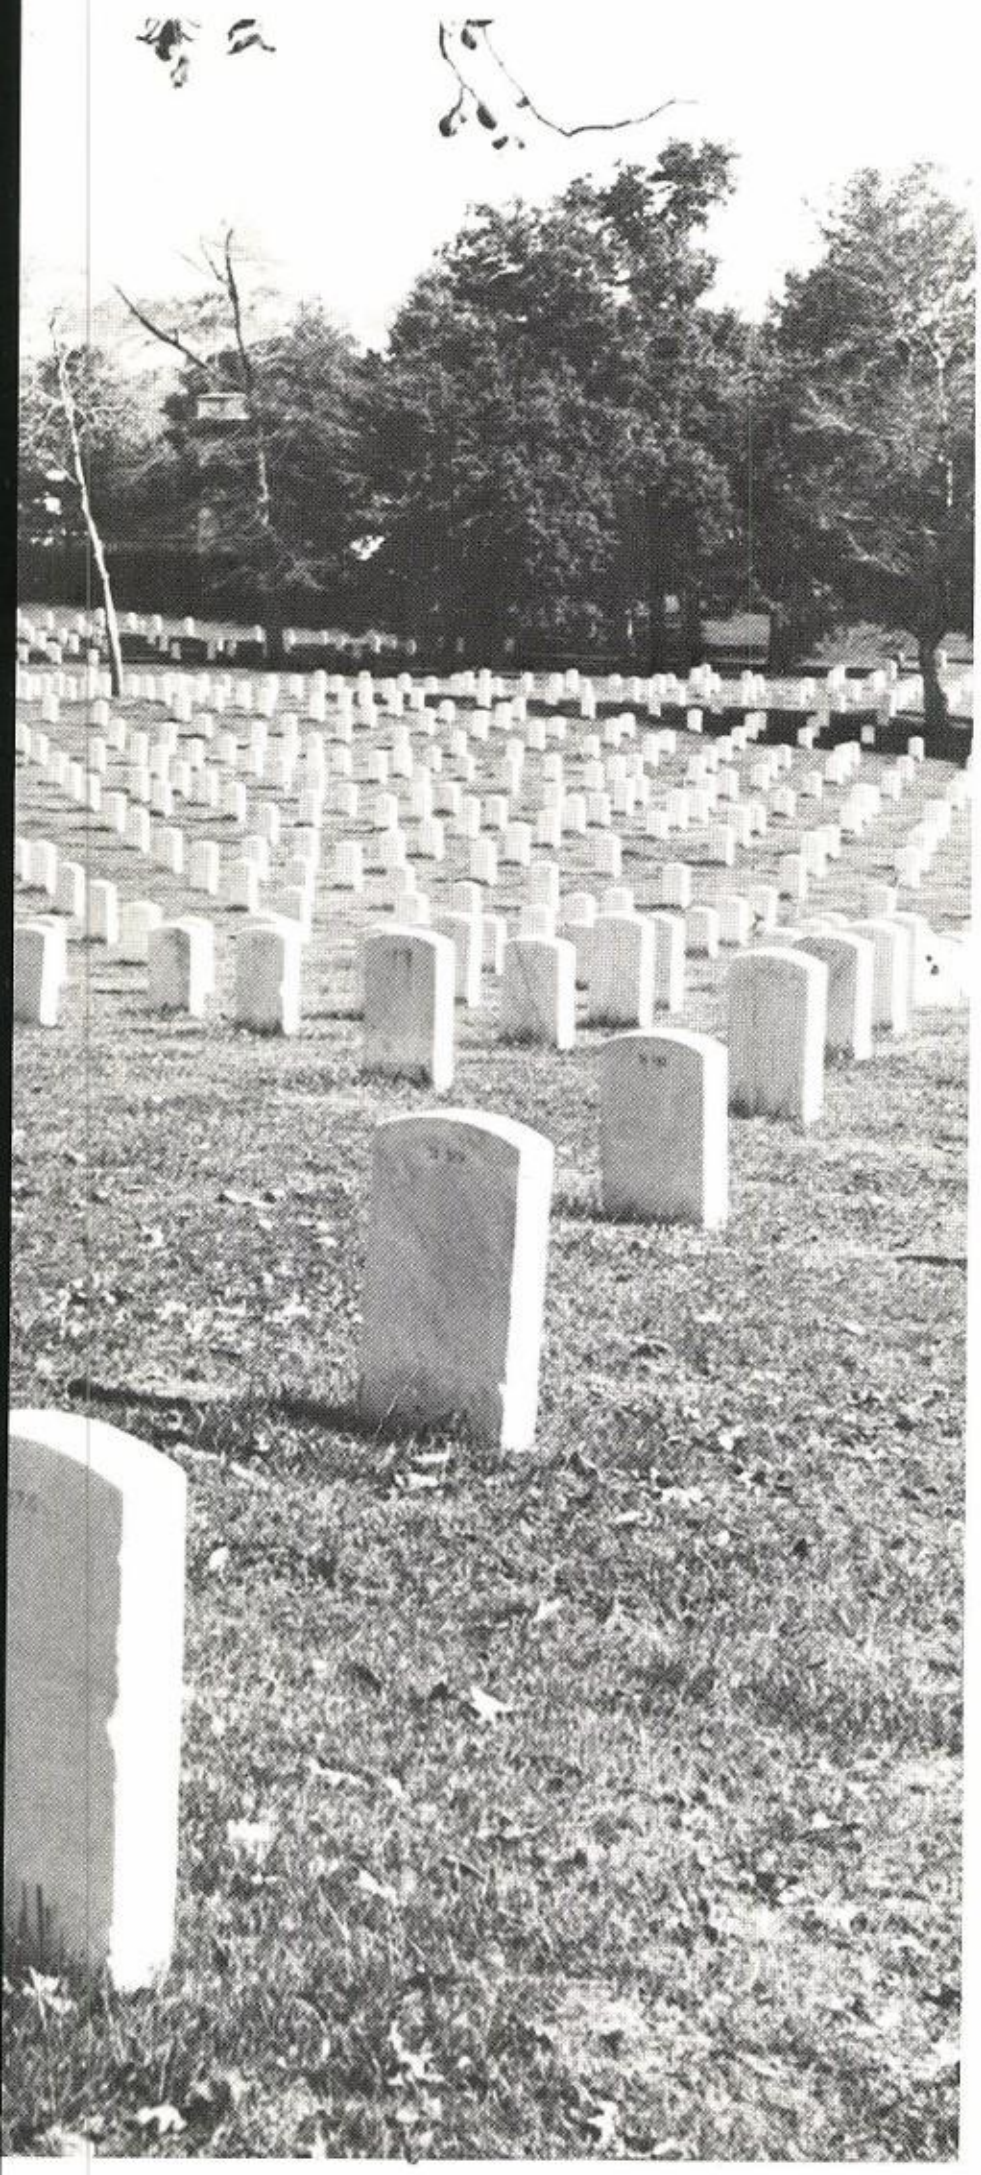
Turmoil,



"We have the power to make this generation the best in the history of mankind or to make it the last."

John F. Kennedy

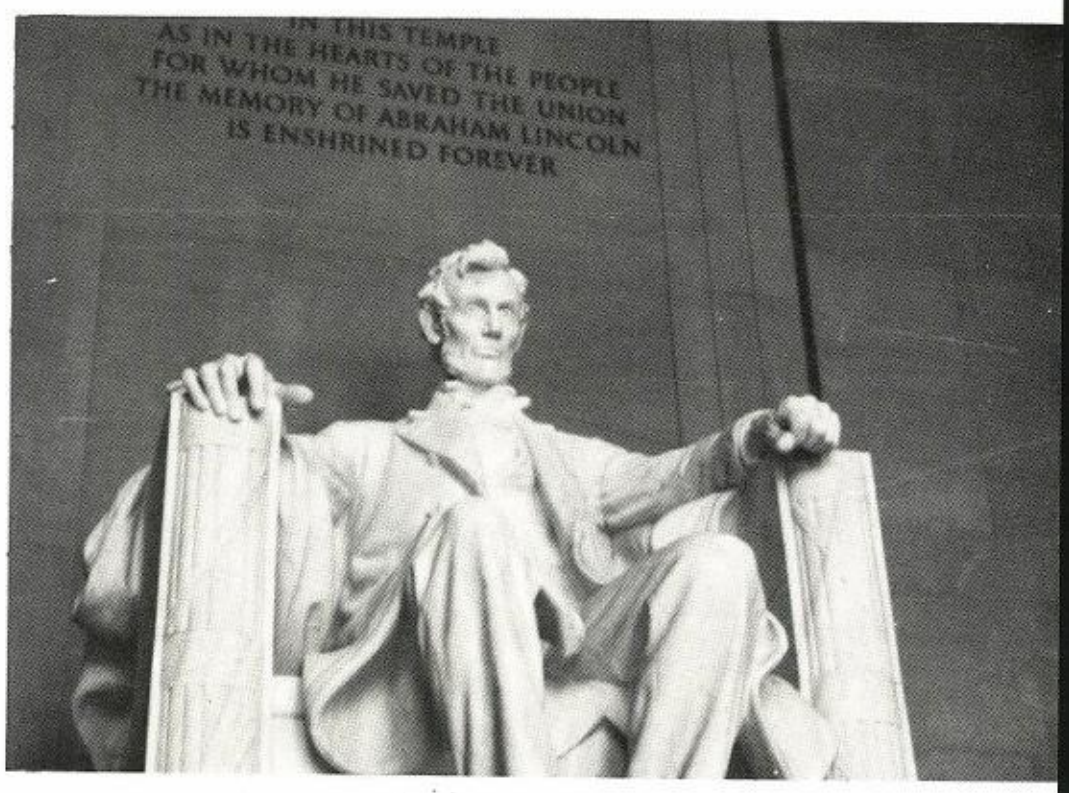
Involvement, Change



We come to realize that our concern for our own little sphere of existence is overshadowed by what lies ahead and what has gone before in that much larger world.

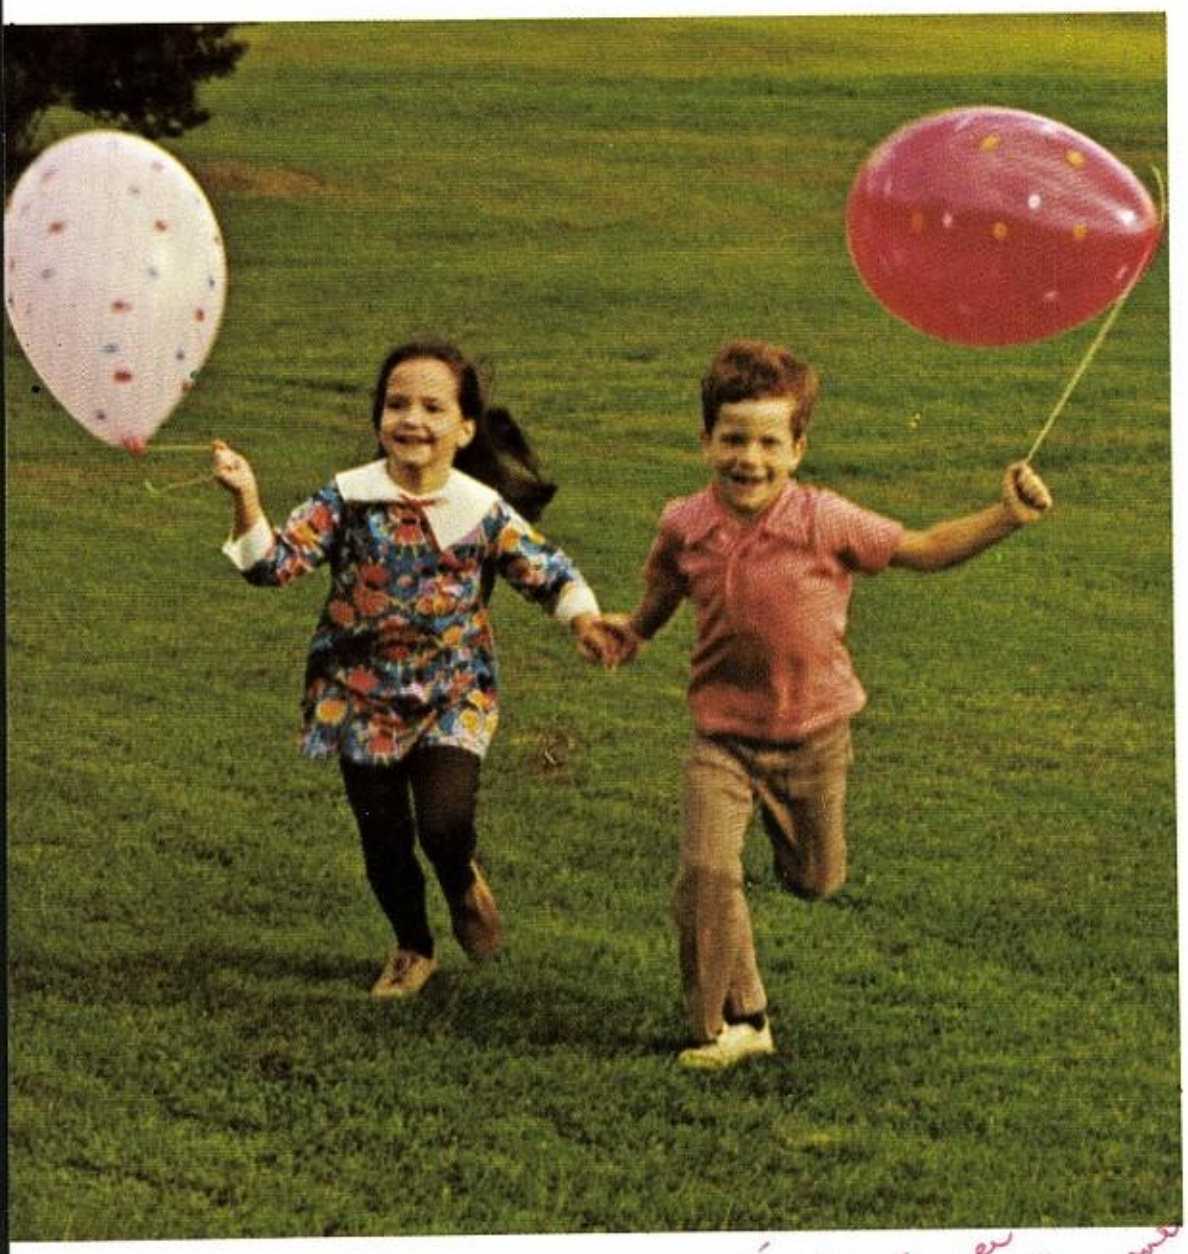
We have seen so much of racism, rioting, assassination, pollution, war — forces chipping away at our youthful idealism.

Let us make sure that while today we are so concerned about preparing for tomorrow that we help insure that there will be a tomorrow to come.



"To sin by silence when they should protest makes cowards of men."

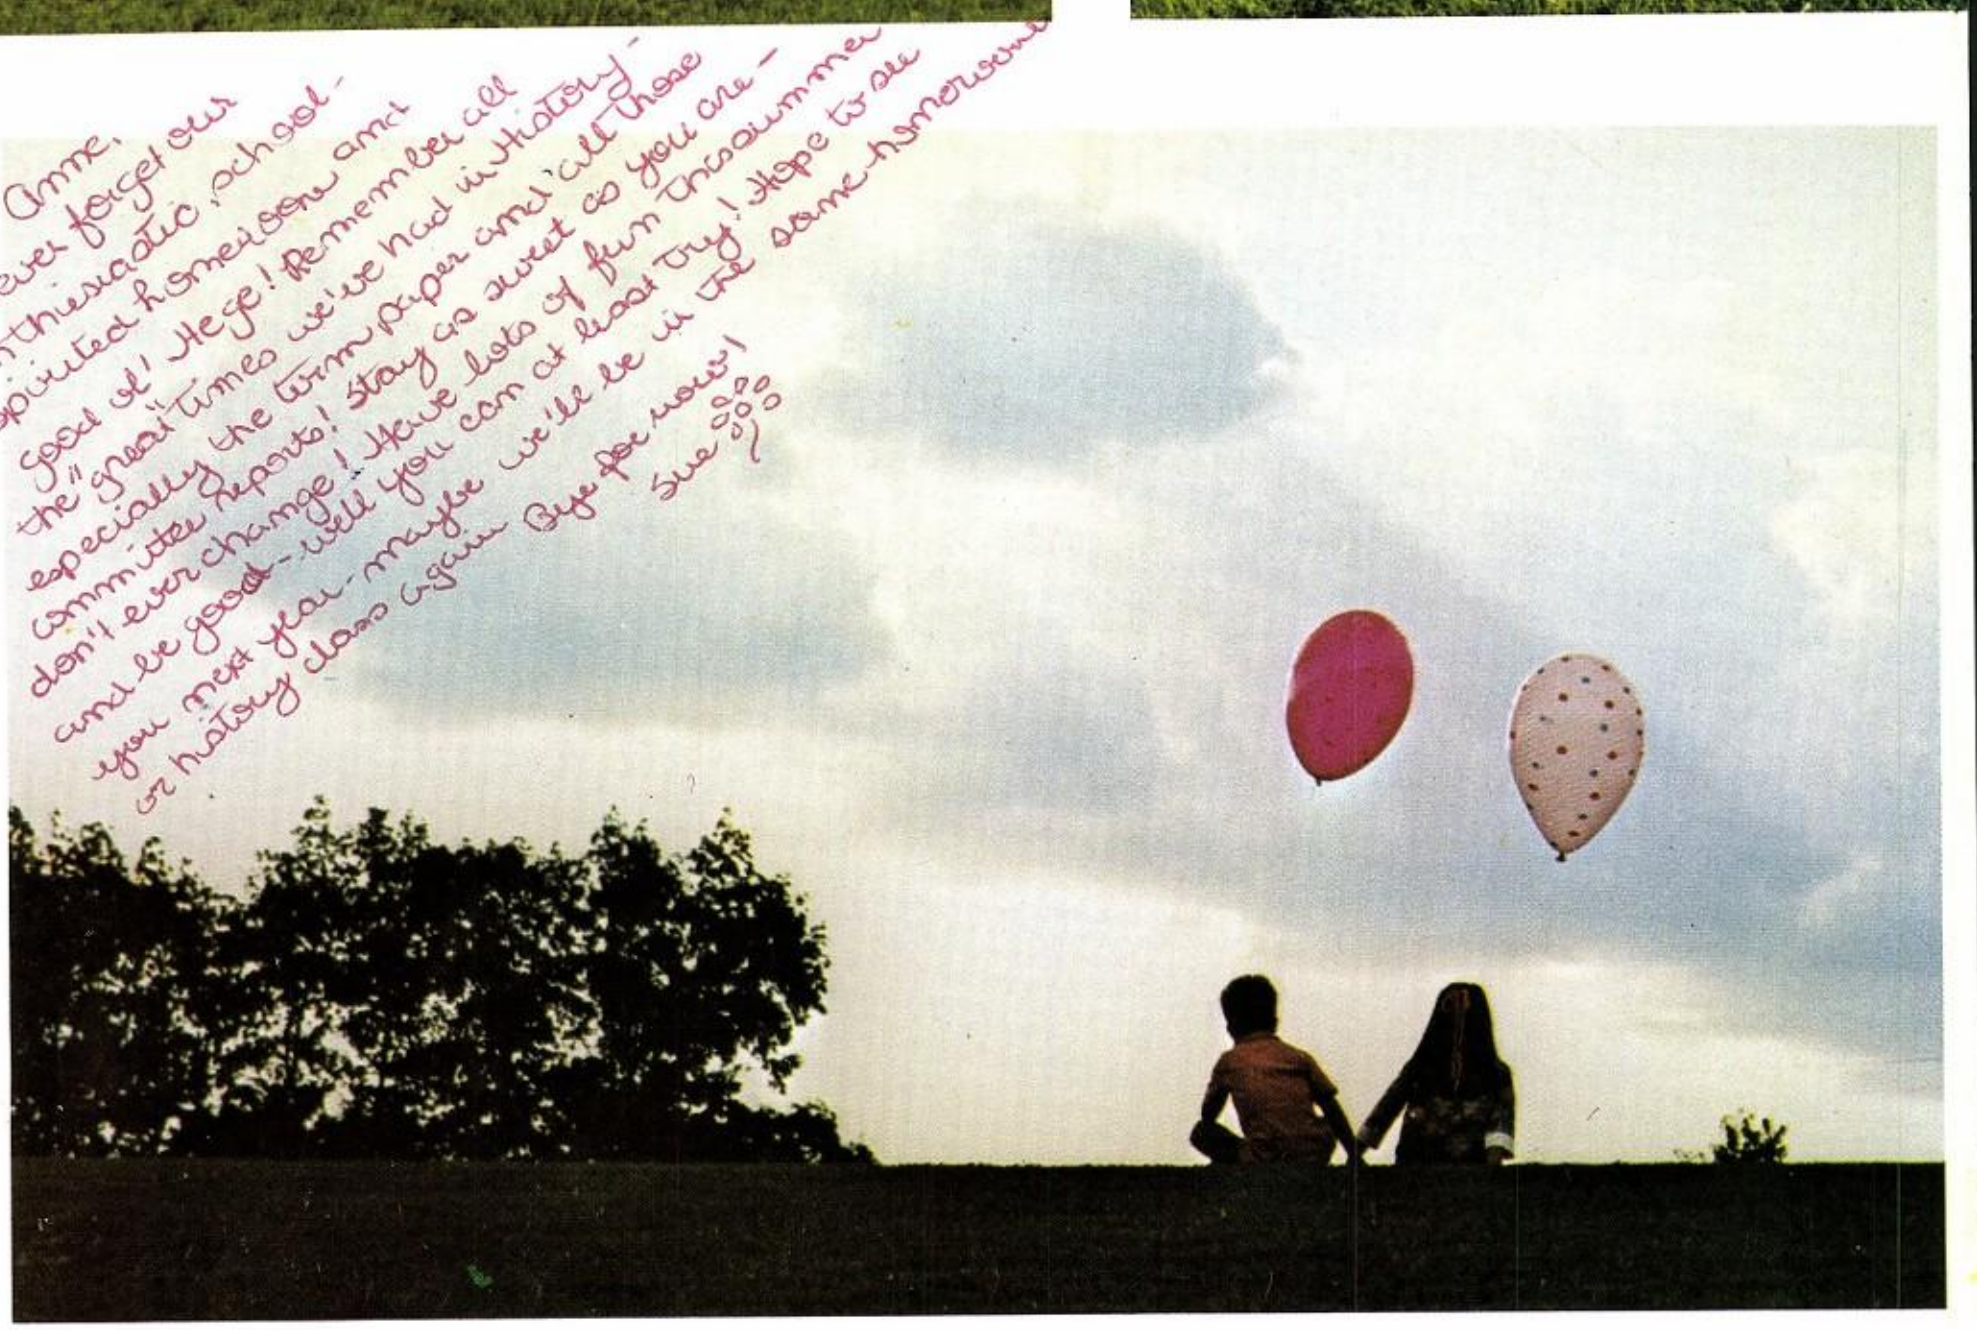
Abraham Lincoln



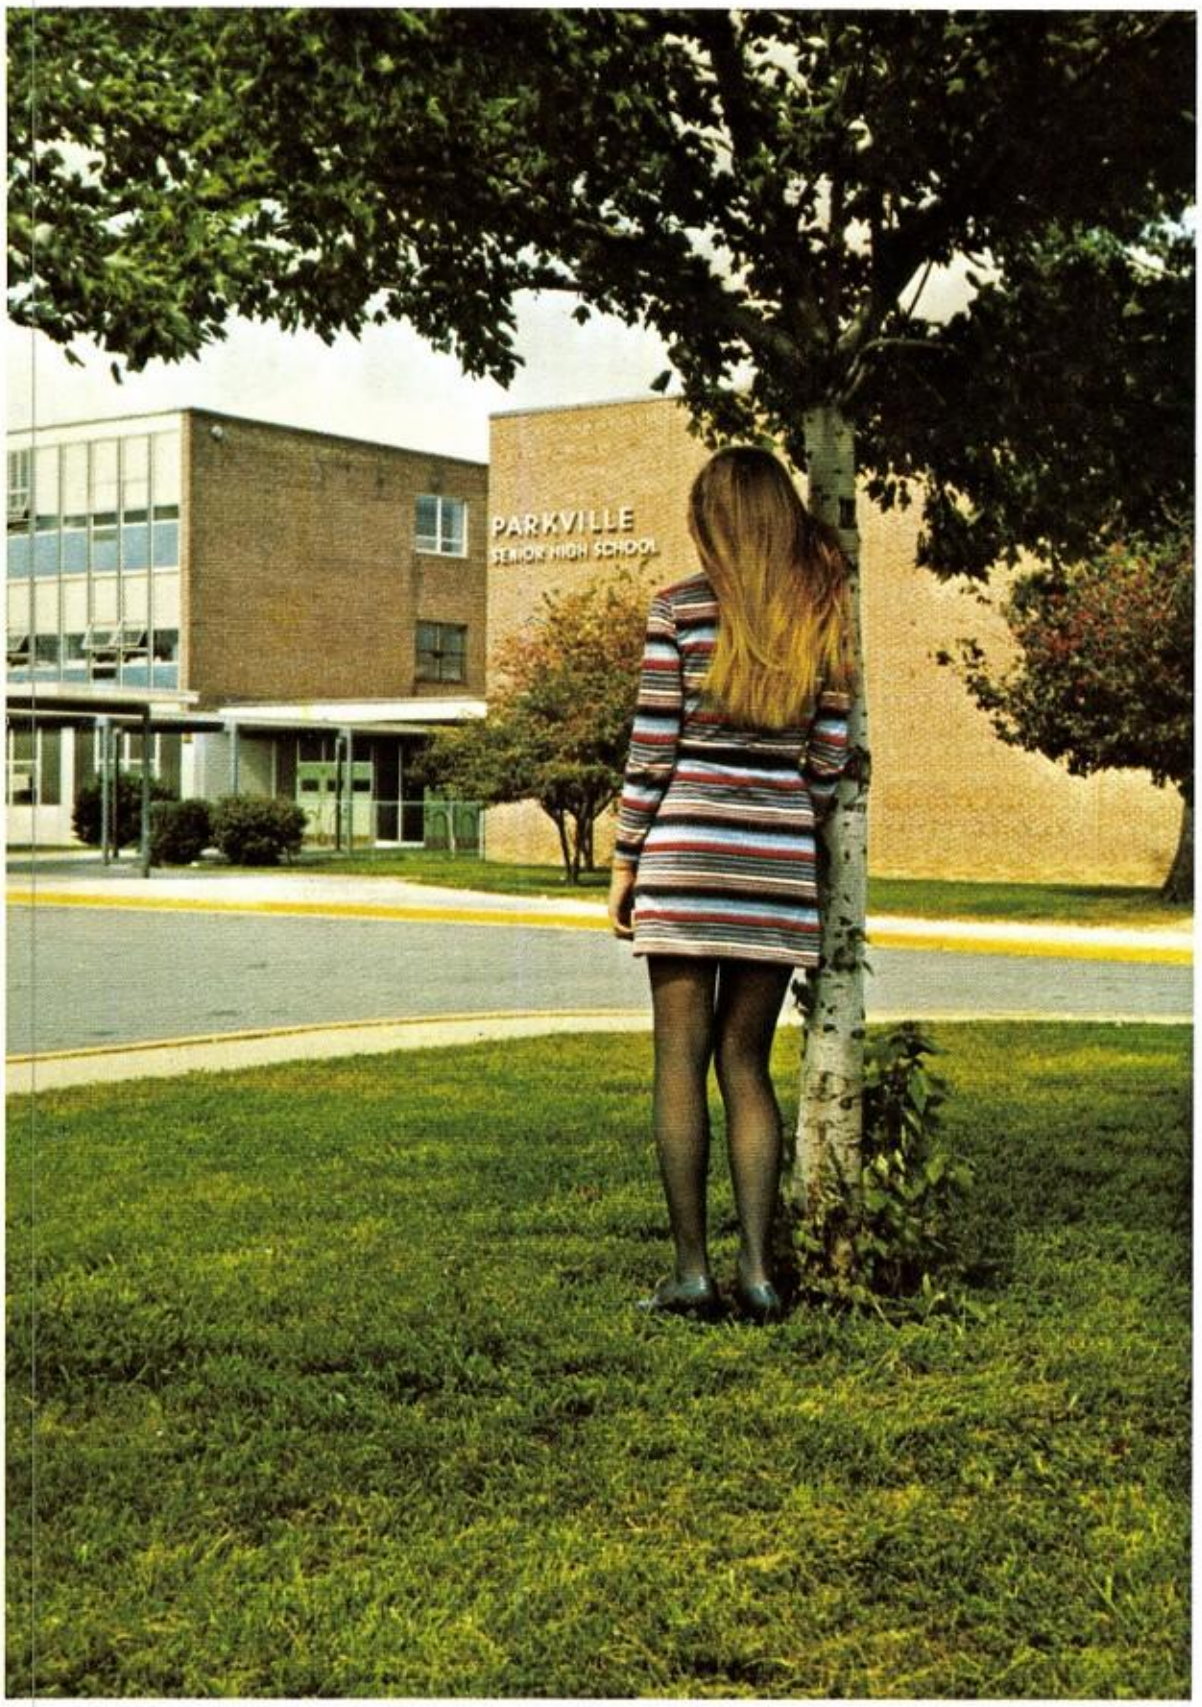
Togetherness

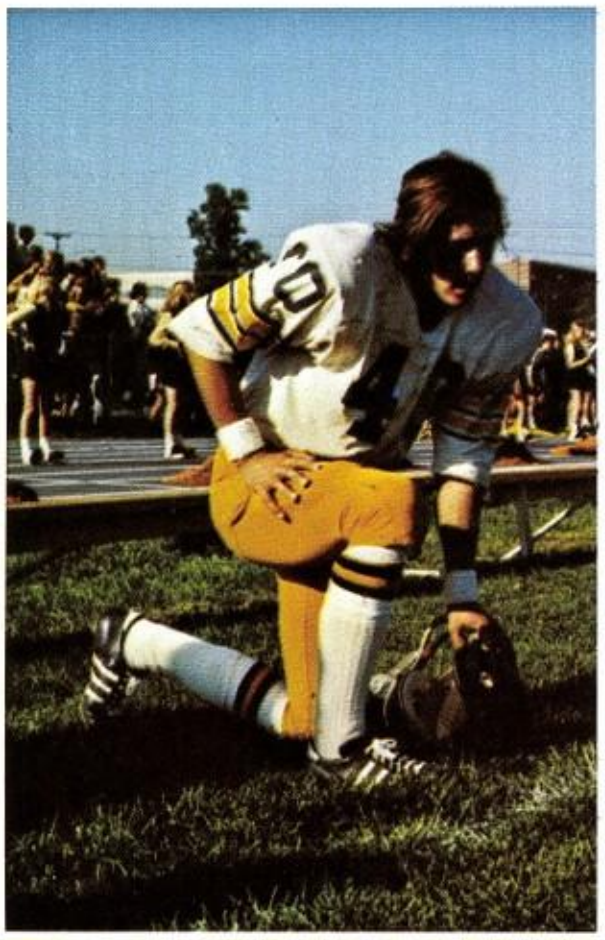
Parkville Senior High is a place, a brick building — nothing more. We make it into something special, something alive and wonderful. From 8:00 'til 3:00 it throbs with life — people caring, learning, growing

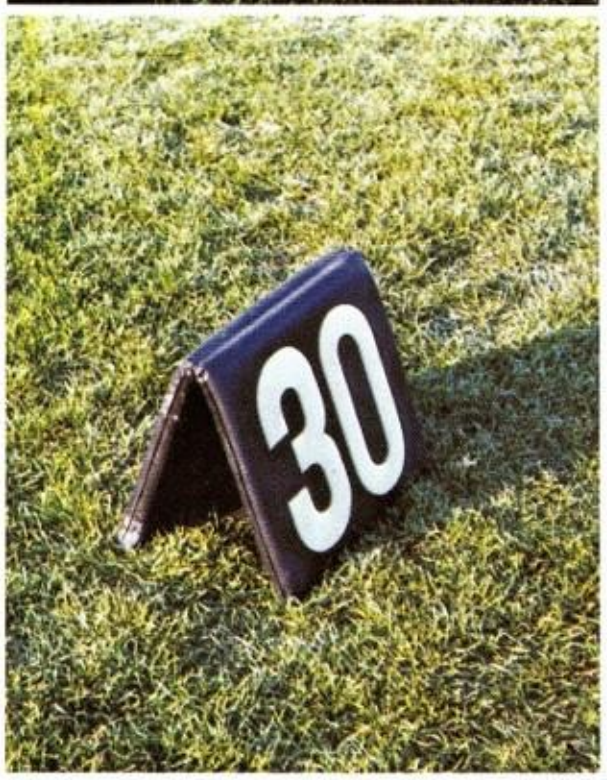
together . . .



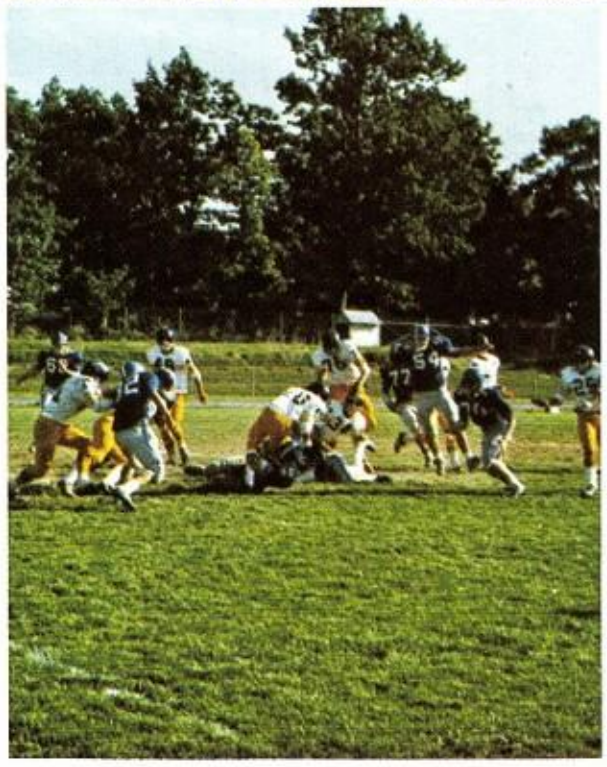
Anne,
Never forget our
enthusiastic, school-
spirited homeroom and
good ol' Hege! Remember all
the "great" times we've had in History -
especially the term paper and all those
committee reports! Stay as sweet as you are -
don't ever change! Have lots of fun this summer
and be good - well you can at least try! Hope to see
you next year - maybe we'll be in the same homeroom
or history class again. Bye for now!
Sue

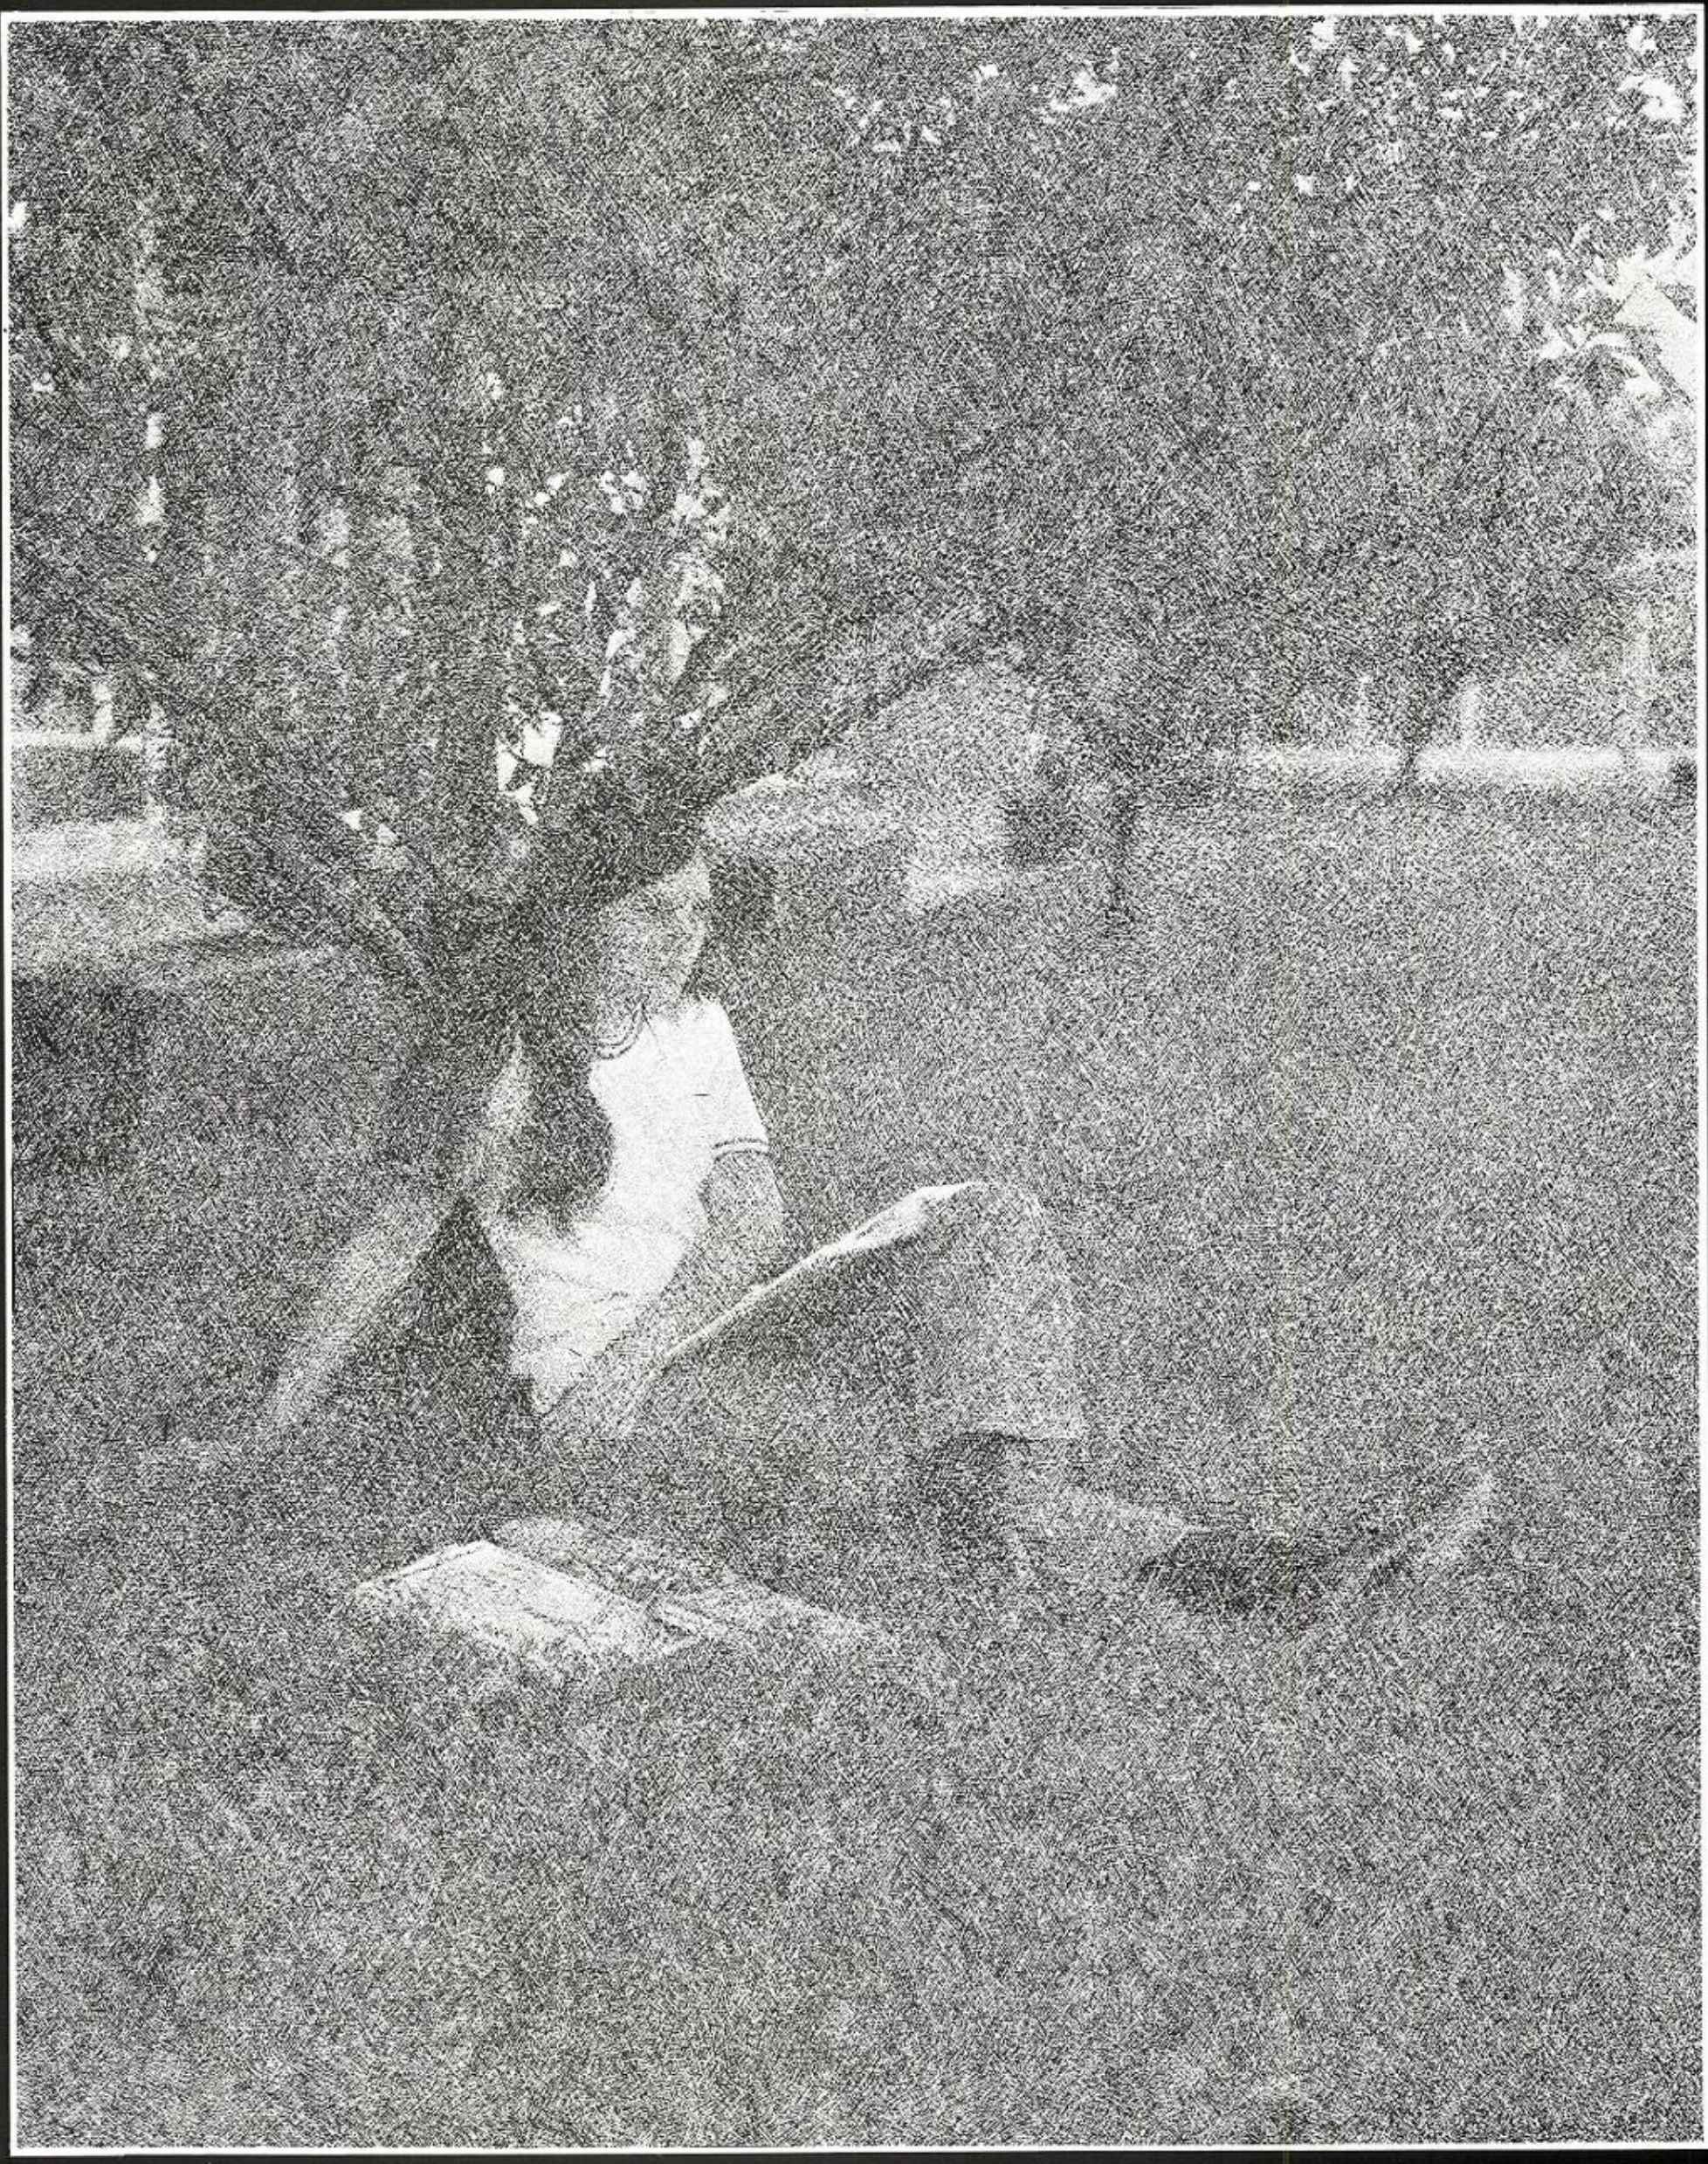






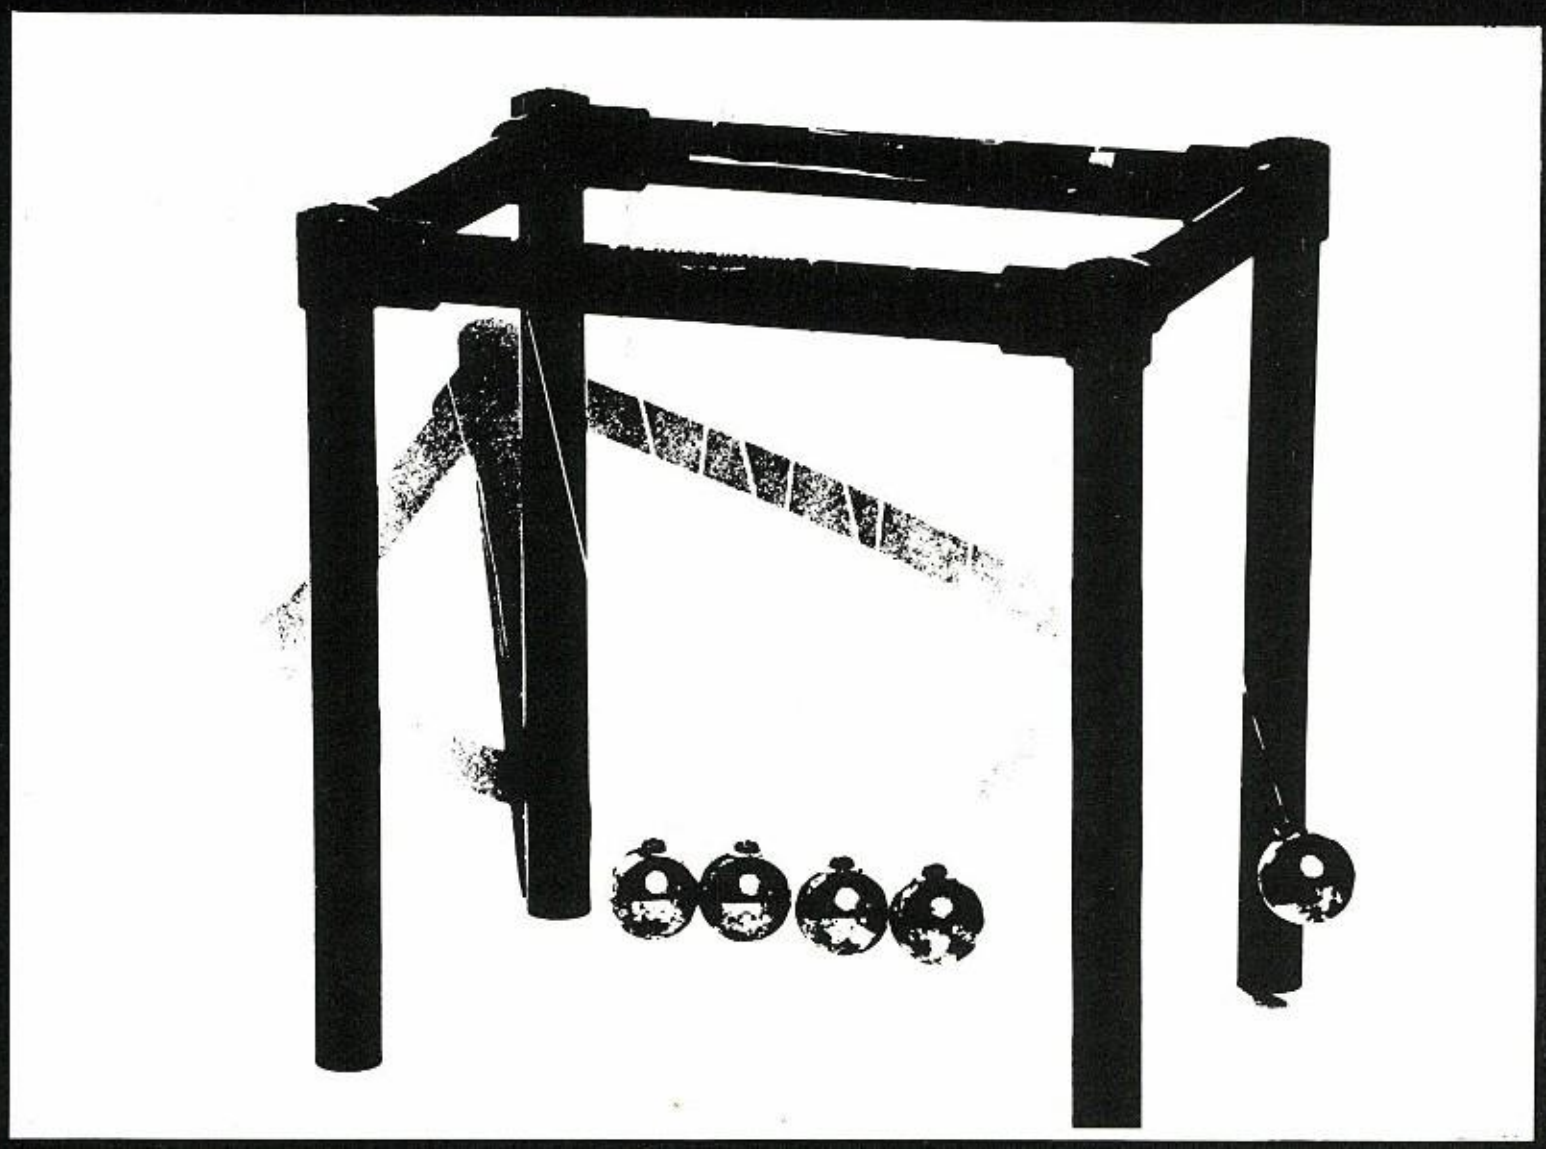
. . . we care, sometimes too much, a lot of times not enough. We learn about ourselves, about others, about life. We grow, entering as children, but with some struggle and much help along the way, we leave a little older and much more ready for tomorrow's world.





ACADEMICS

. . . a trial of learning shared by others who can spring the trap to a mind or close an open door.



"If he doesn't hurry up and take this picture, I'll scream."

The Parkville Senior High School

For the third consecutive year, *Odyssey* has honored ten seniors of the graduating class with membership in The Parkville Senior High School Hall of Fame. There is no one single criteria which determines a senior's selection to the Hall. Each department, class sponsor, coach, advisor, administrator, and guidance counselor nominates students. The entire procedure is supervised by Mr. McGhay and the Guidance Department. The ten newly installed members of the Hall of Fame truly exemplify the word *outstanding* in the areas of scholarship, service to the school, leadership, acceptance of responsibility, and personal integrity.

The Class of 1972 should be proud, not only of these ten classmates, but of the over 75 students who received votes. Because of the extreme difficulty of having to select only ten seniors, the Guidance Department and *Odyssey* has established an Honorable Mention to the Hall of Fame. Mr. Sgro, the faculty, Mr. McGhay, Mr. P., and the *Odyssey* staff congratulate the seniors deservedly honored on these pages.

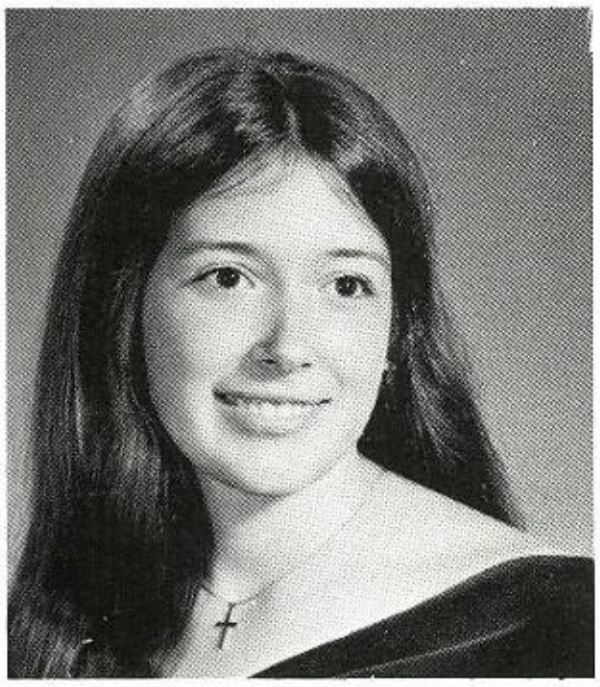
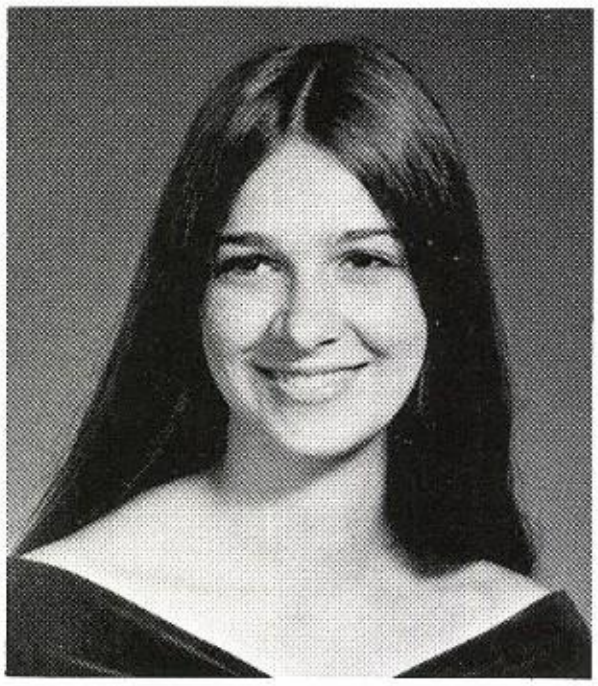
KEVIN COOKE

Kevin has been one of the most outstanding individuals ever to attend Parkville. His academic and athletic achievements have been truly amazing. Kevin has played Varsity Football, Basketball, and Lacrosse. It is rare when an individual excels so well in all areas. Kevin has maintained an A average and served the Class of 1972 as Vice-President. A quiet, personable young man, Kevin has made his mark at Parkville. College and a career in medicine lie in Kevin's future.



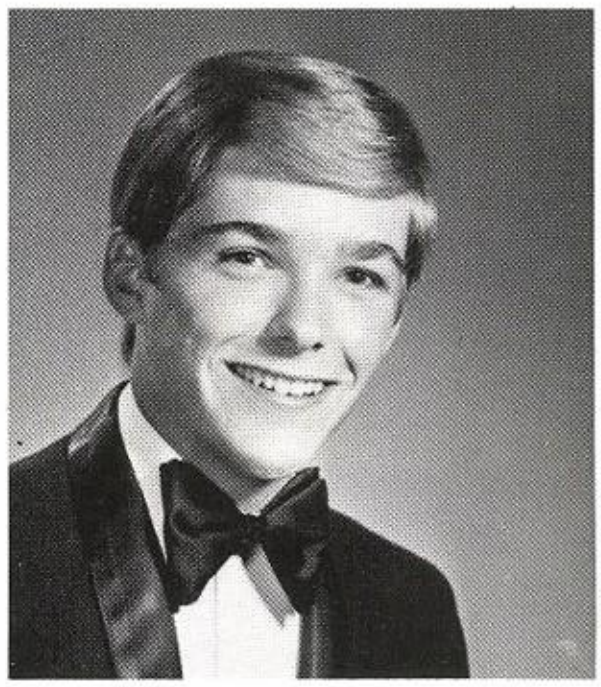
GAIL LINTON

Gail has been a major factor in the achievements of the Class of 1972. She has served as both Vice-President and President and was responsible for the success of such activities as the Ring Dance, Auction, Pin Dance, Prom, Banquet, and Ball. Her outstanding personality has enabled Gail to enlist the support of many of her fellow students for the benefit of all. An A student, Gail has been a member of The National Honor Society for two years. Her intelligent leadership and direction have done much to bring harmony to Parkville. She will be attending either Towson or Frostburg in the fall.



MARGE MAYERS

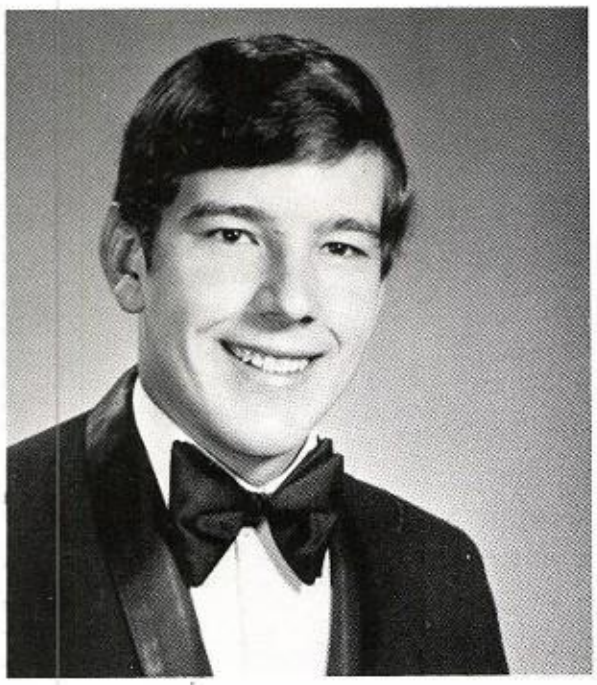
Marge has proven to be a lady of immense talent in her career at Parkville. Her performances in dramatic productions have been truly unforgettable. Few will ever forget the absolute brilliance of her role as Jean Brodie last fall. A highly self-motivated student, Marge has maintained an A average. An extremely hard worker, Marge was the student director for Senior Follies. She will be attending college in the fall with a possible concentration in political science. Marge hopes to have a career in either teaching or the production end of the theatre. All of us who have known her are assured of her success.



AL REUBLING

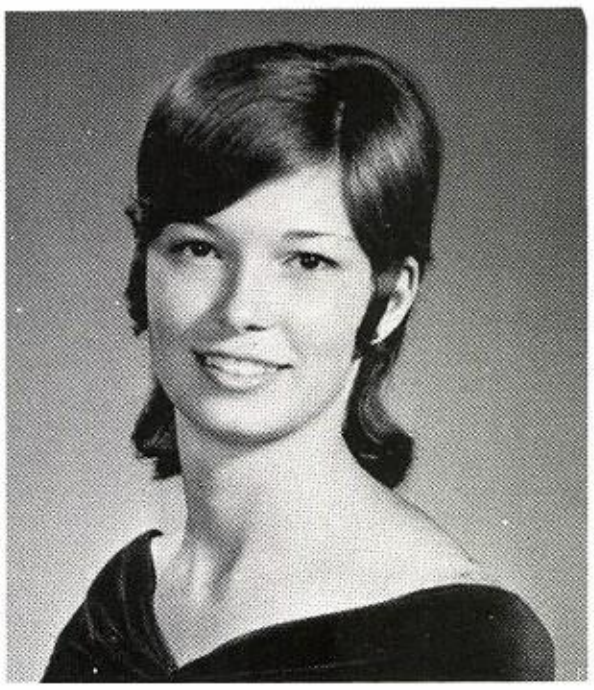
All around excellence marks the contribution Al has made at Parkville. He has been a real worker for such groups as PYCCA, Student Council, Class of 1972, and the Student Faculty Committee. Al has also found time to be one of the mainstays of Knight baseball for three years. Al's diligence, enthusiasm, and cooperation have won for him the respect and friendship of classmates, teammates, and teachers. An excellent student, Al is a member of The National Honor Society. Al will attend college in the fall, majoring in civil engineering or architecture.

Hall Of Fame — Class Of 1972



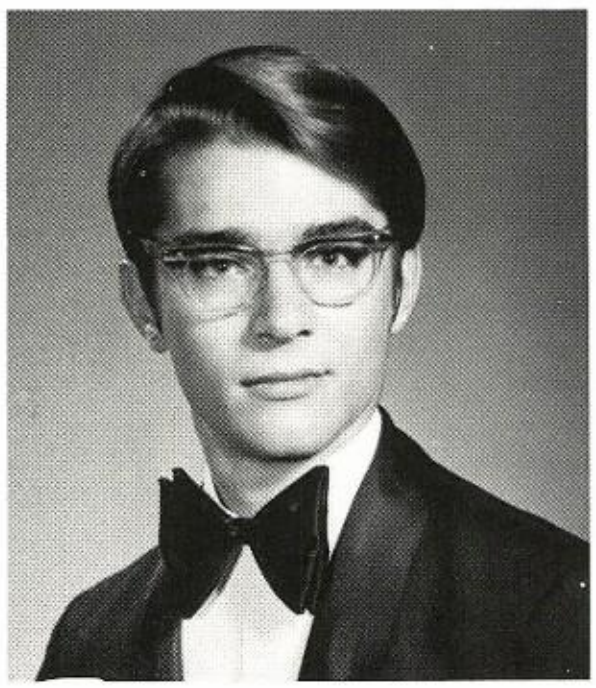
RICK CWALINSKI

Possessing an excellent sense of humor and an attitude of determination to succeed, Rick typifies the type of young man coaches and instructors enjoy working with. A standout in both football and lacrosse, Rick received All County Defenseman recognition in lacrosse. A better than average student, he has demonstrated outstanding leadership qualities both on and off the athletic field. Rick will succeed for he has the knack for making realistic decisions and choices. He hopes to attend Essex or Towson in the fall.



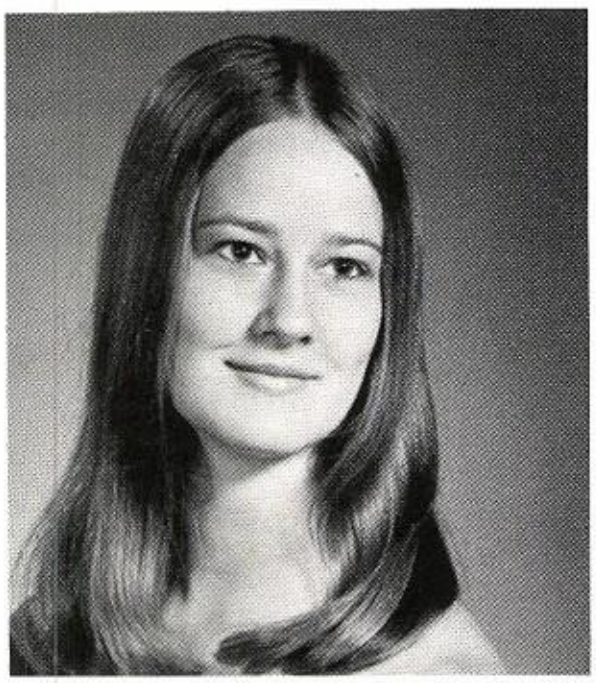
PAM JOHNSON

Pam has been the outstanding business student of the class of 1972. An excellent scholar in all subjects, she has carried a straight A average in business education. Her quiet, pleasant manner has been a delight to all who have made her acquaintance. Her academic success has been achieved in all areas, carrying a 3.8 average and being in The National Honor Society. Pam hopes to attend Bryman School in the fall and work as a medical or dental assistant.



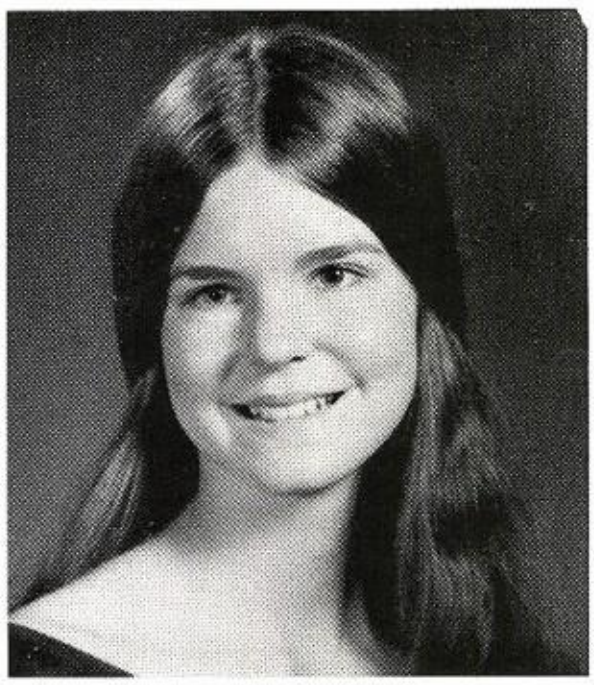
PHIL KOTSCHENREUTHER

Leadership of the highest caliber best describes Phil's three years at Parkville. He has served as both Class and Student Council President. Phil's leadership has been more than just the delegating of things for people to do, but in leadership by example in understanding, working, and creating atmospheres that have encouraged so many people to work for Parkville. An excellent A student and National Honor Society member, Phil has won Citizenship and American Legion Awards. This mature, polite young man will attend college and major in Pre-Law and political science.



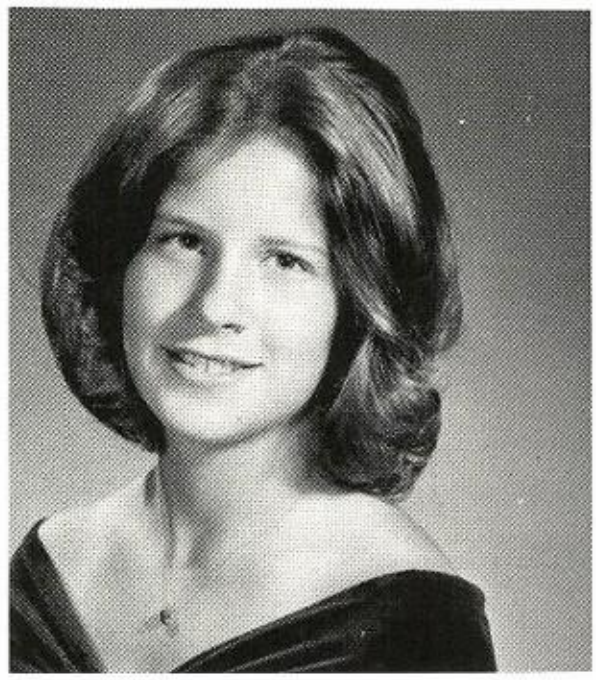
STEPHANYE SCHUYLER

Space does not permit an accurate description of the contributions and involvement of this attractive young lady. Stephanye has compiled one of the most remarkable high school records in the history of Baltimore County. Academically she has few peers, having been a straight A student, President of The National Honor Society, and member of the *Quiz Bowl* and *It's Academic* teams. A beautiful writer, her informative articles and sensitive poetry have highlighted *The Pioneer* and *Impressions*. Active in council she has represented Parkville in the BCRASC and the MASC. Just a few of the awards she has won include Betty Crocker Homemaker of the Year and finalist in the Maryland Literary Arts Competition. Stephanye has plans for a career in journalism.



LINDA TAYLOR

Few people have ever attended Parkville who have been responsible for the organization and direction of programs that have helped so many people as Linda. As Chairman of PYCCA, she has organized projects combating drug abuse and pollution. Two years ago she began a "Save the Trees" program which has led to the establishment of a reclamation center for the entire community of Parkville. An excellent student, Linda has made major contributions to the journalism program, having been an editor for both *The Pioneer* and *Odyssey*. This lovely young lady hopes to attend Towson, majoring in English, with a career in teaching or writing. She has given much of herself in helping many people and she will be missed next year.



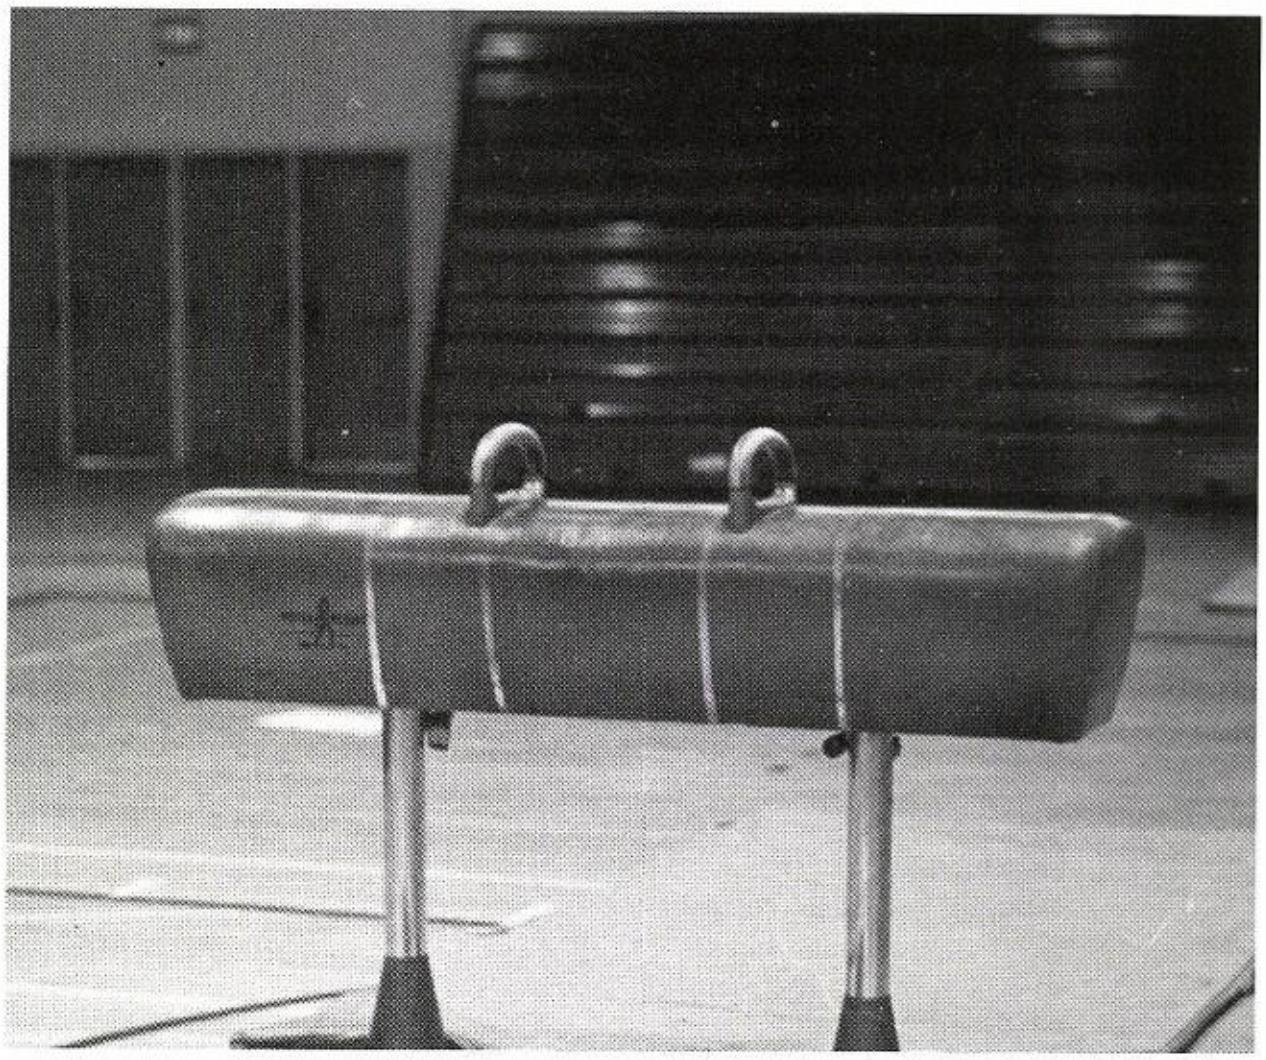
BENITA WATKINS

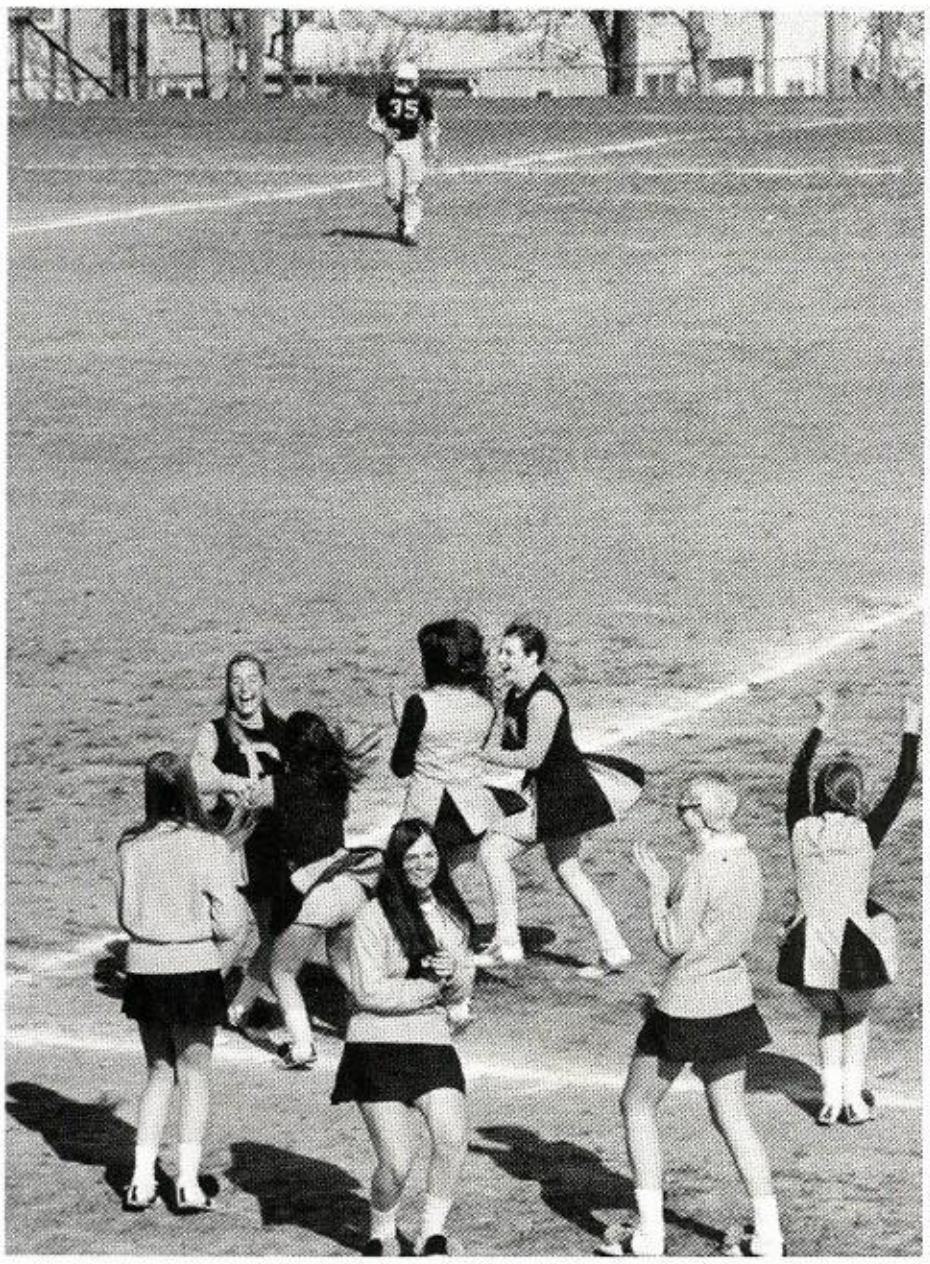
Dedication, pride, and consistency are the qualities which best describe Bonnie and her achievements at Parkville. She has been very active in athletics, having participated in field hockey, basketball, and lacrosse. Bonnie has been a vital member of the yearbook for the last two years and is the Editor of the 1972 *Odyssey*. She has been the major creative force responsible for the many changes and the innovations in this yearbook. This sensitive and mature young lady has been a consistent B student. Bonnie was honored by the Hillendale Optimist where she was given the Youth Appreciation Award at a banquet held in her honor. Having won the respect and admiration of her fellow students and the faculty, Bonnie will be off to the University of Maryland and a career in physical education.

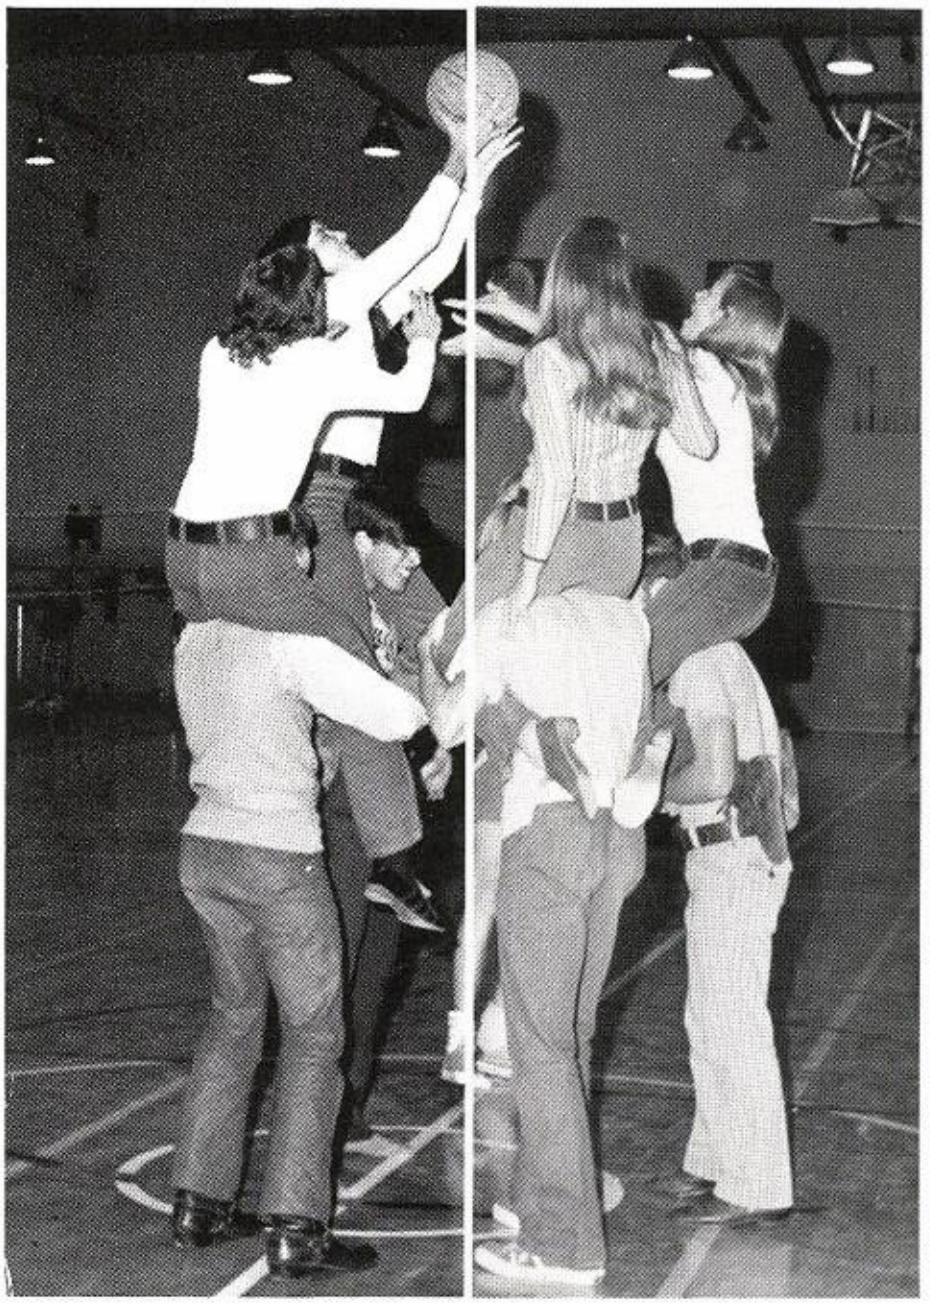
So much of our years at Parkville will be lost or forgotten in the events of the future —

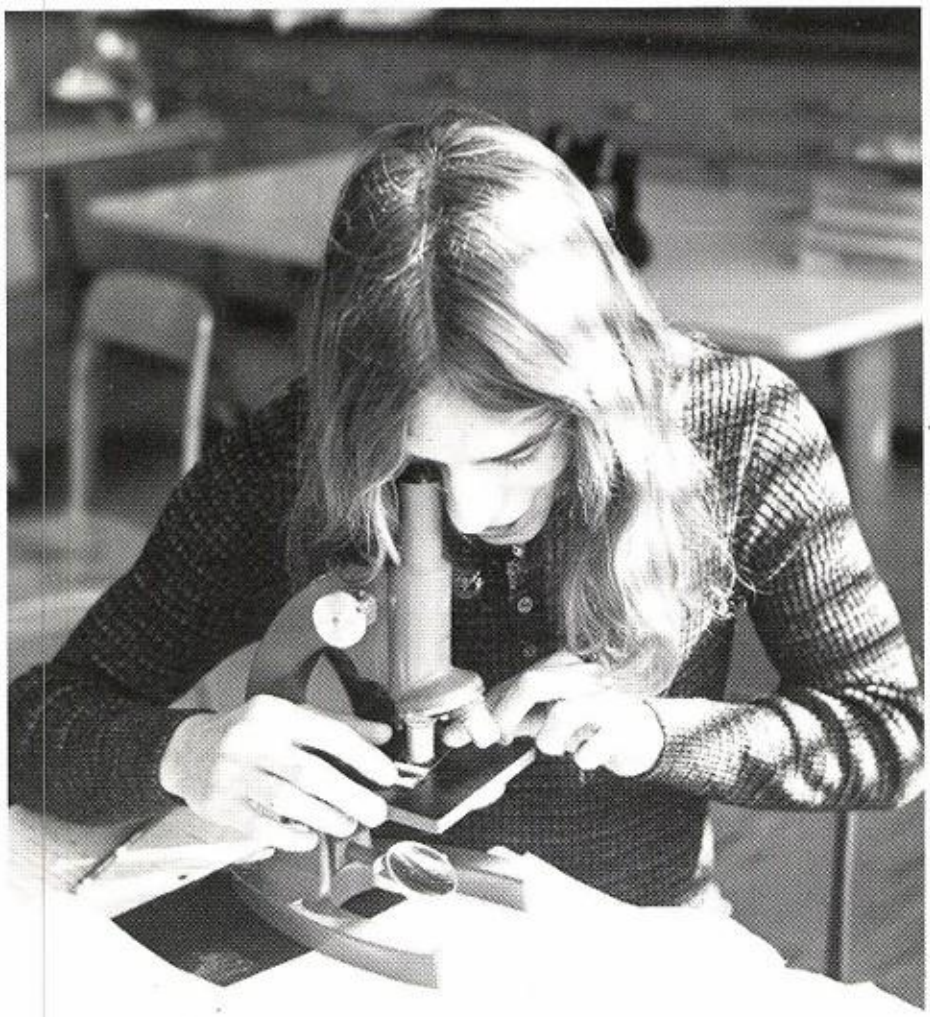
but we must try to keep and hold on to the memories of the important things of our world . . .

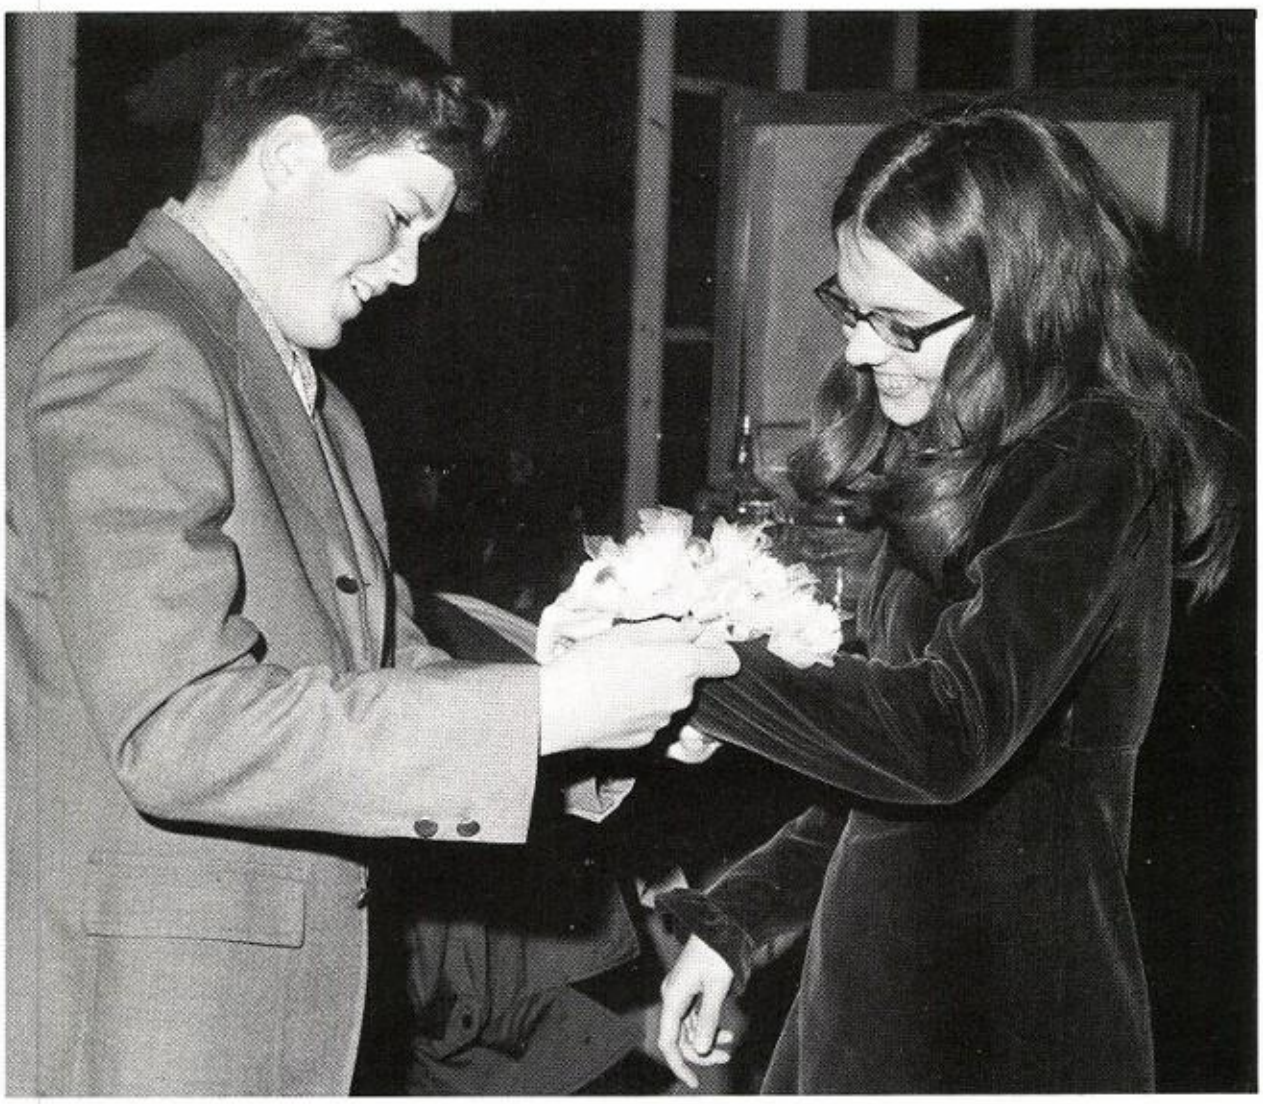
knowing that because of our special pride we were always victors no matter how many games were lost . . .









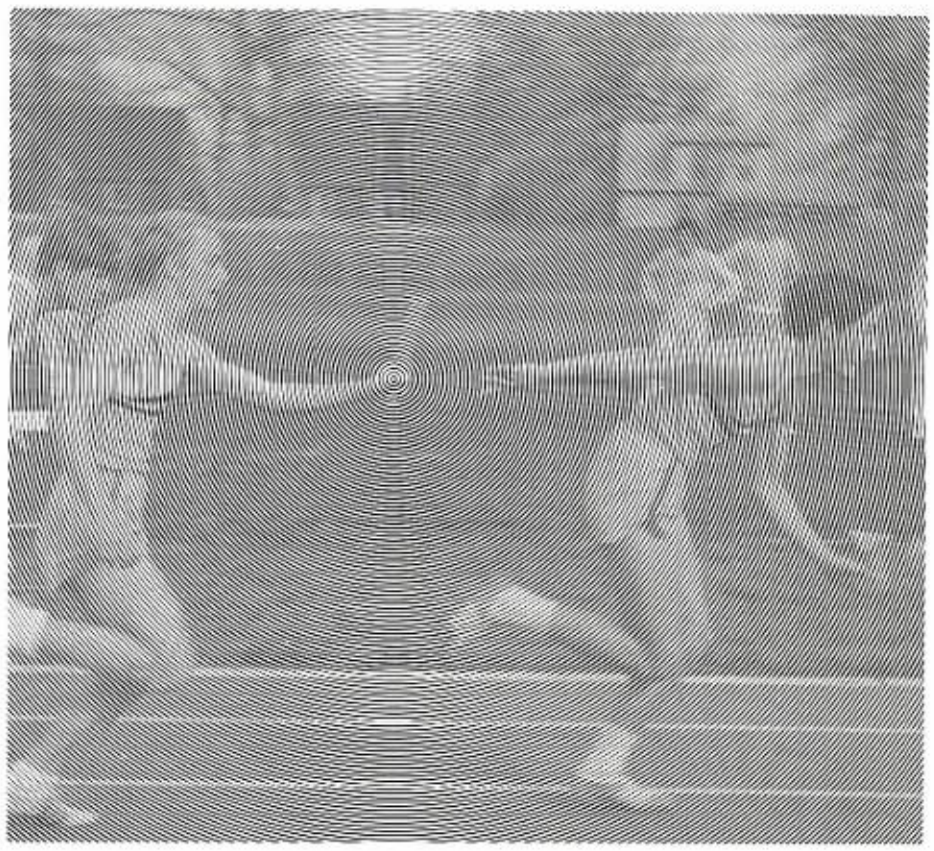


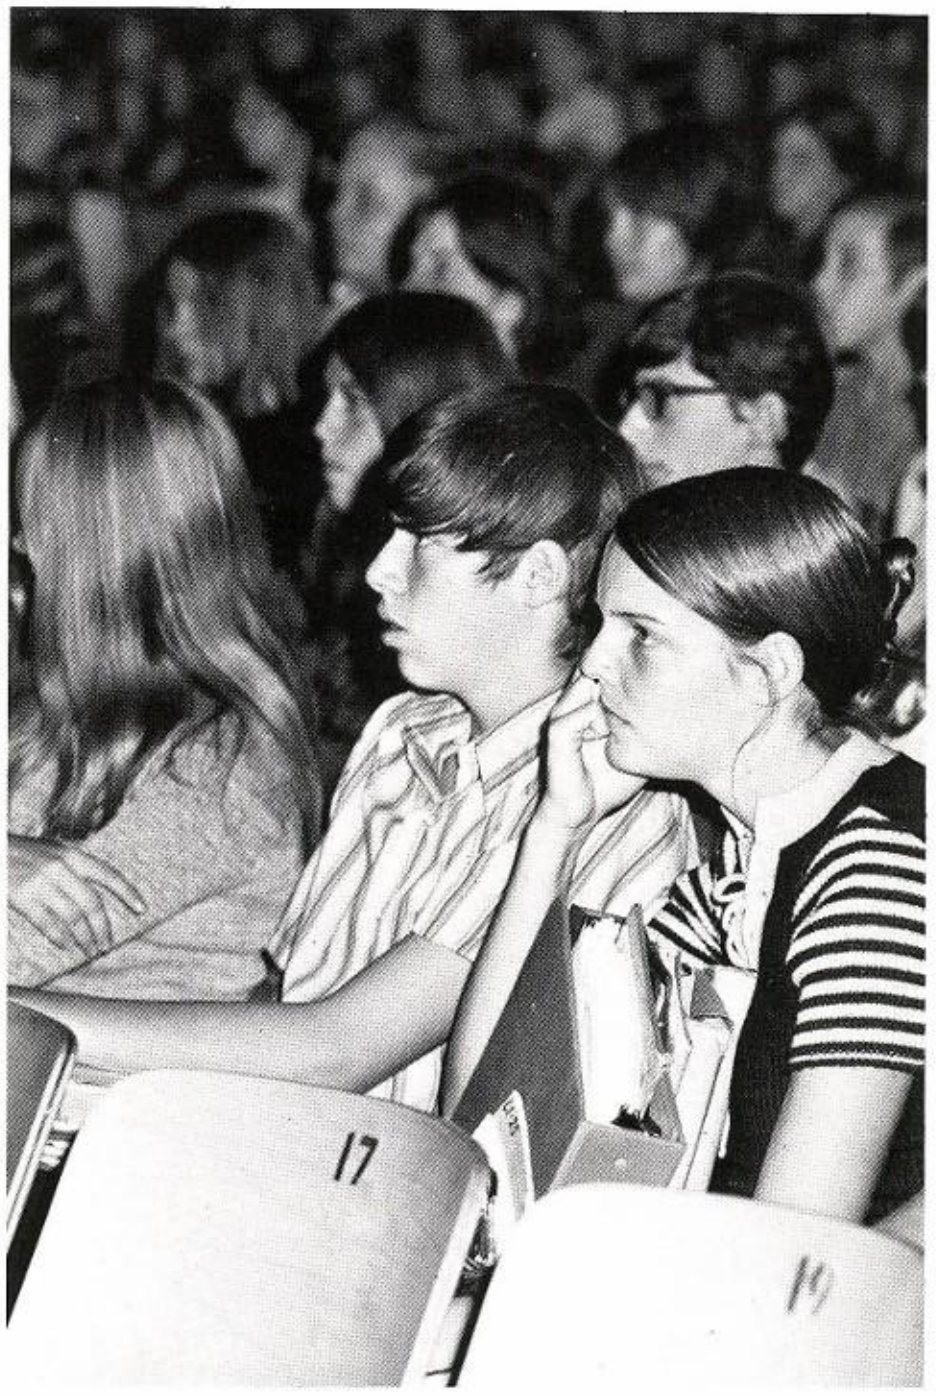
sharing new experiences, ideas, feelings . . .

solving problems through work and understanding . . .

proud hearts and glad spirits . . .

special feelings of love for very special people . . .

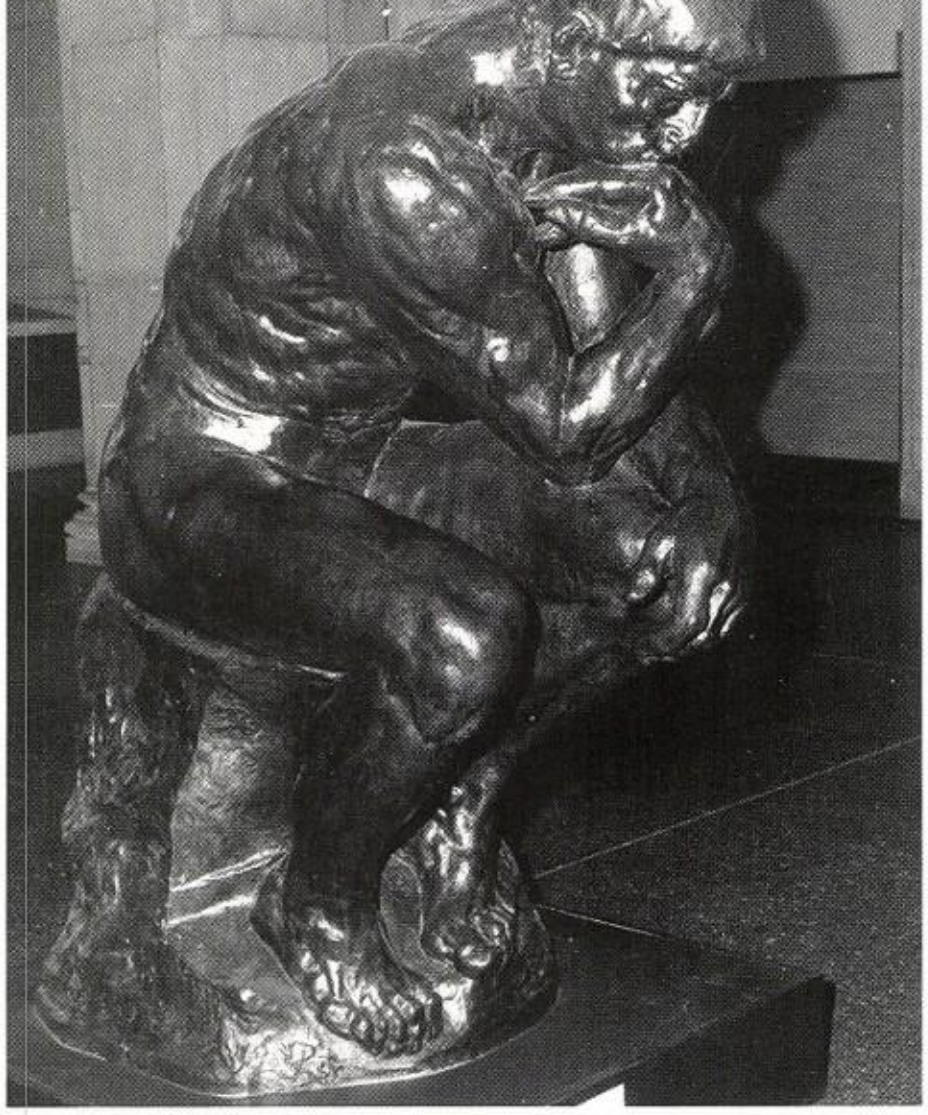


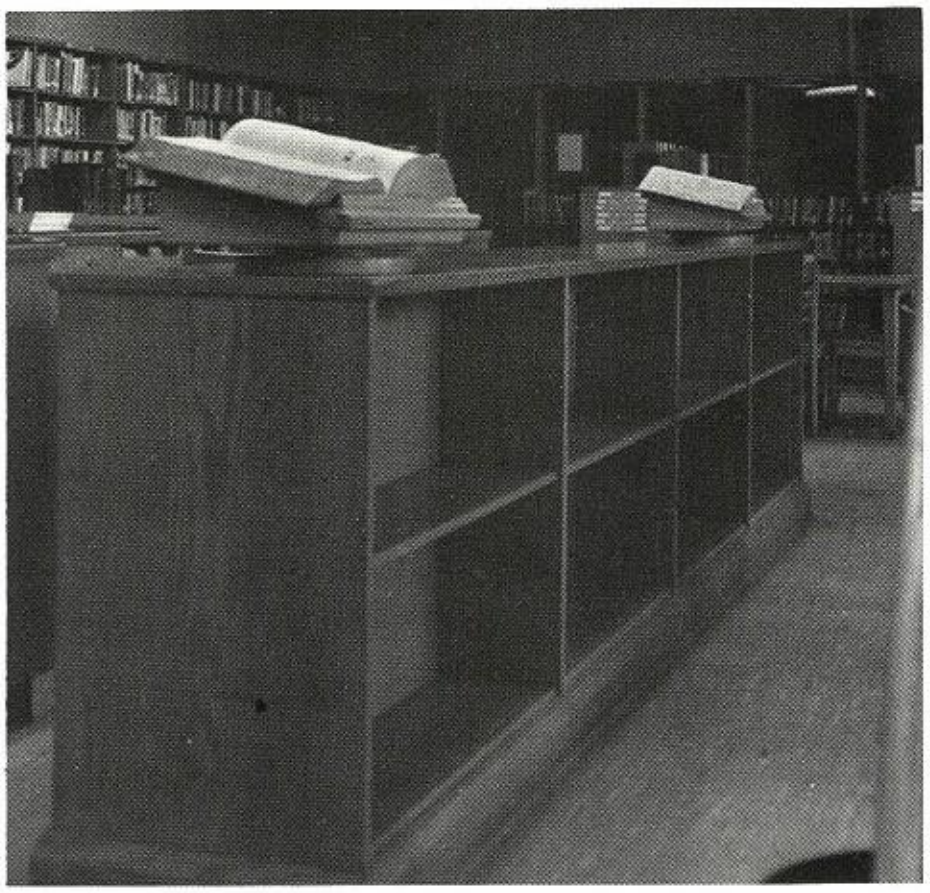


On bridges built of hopes and dreams we leave "our world" of Parkville to walk in new worlds . . .

There, many of us will stride forth to success.
Some will stumble and fall, but to Parkville and the people in it —

we owe thanks for the chance to take the first step . . .





from our lives here in this world we take with us the knowledge of what life is —

and dreams of what it should be . . .

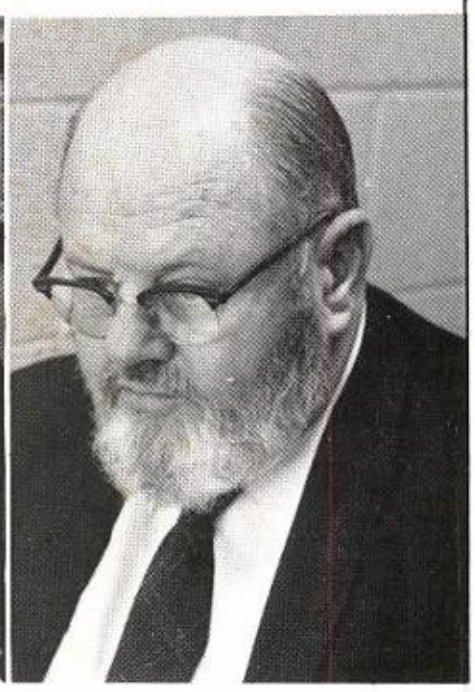
Special Thanks To Two Special People



It seems like only yesterday that *Odyssey* 72 was no more than sketchy ideas on a thousand pieces of paper and there have been times when we wondered if we would ever make it to this page. But because we have made it and are proud and happy about *Odyssey*, we must thank some special people who helped make it all possible. There are so many wonderful people at Segall Majestic space does not permit us to thank them all. But we must mention John Segall for a thousand favors and for always being there when we needed him. Thanks to Skip Wittich and Susan Lester of Taylor for seeming to always have the answers. Thanks to Mr. Harry Wilson, the business staff, and our own editors and staff for making our job easy. Very special feelings go to Kathy Murphy and Linda Taylor who have devoted practically every Saturday from October to March to *Odyssey*. Both of them have meant more to this yearbook and to us than they will ever know. Finally thanks to the student body and faculty for the activities that fill these pages. We hope we have captured in words and pictures what Parkville is all about.

The close of the school year in 1972 marks the end of the careers of two people who together have given sixty-four years to the education of young people. Mrs. Clara Kneece has spent forty years in education. She has been the head librarian at Parkville since the new building opened in 1959. Mr. Thomas Reimensnyder has been a guidance counselor at Parkville also since 1959. It would be impossible to estimate how many lives have been touched by these two dedicated people. The *Odyssey* speaks for Mr. Sgro, the faculty, and the student body in wishing them both the best in their retirements and thanking them for having been so much a part of Parkville.

Anne, Good luck in the future to a very nice girl. Hope you do well in college.

Don

Anne,
From now on you are on my "TOP TEN" list of nice people that I know! You really are great to sit next to and talk to. Best wishes for the summer and try to be good!

Love ya
Lish

Anne, I'm so glad I got to know you better this year. I found you to be friendly and sensitive - qualities that will take you far in life. I hope we will be in some classes together next year. Have a fun summer!

Love,
Cindy Reynolds

Anne,
It's been nice knowing you. Remember our crazy Spanish class and our boring history class. Have fun over the summer. See ya next year. Nic

Anne — Thanks for being so nice about everything & being a friend this year. I didn't mean all of it. Maybe you won't complain so much about Physics grade next year. Have fun. Love, Carol.

Anne's a hard worker & a lot of fun to know. She's very artistic & has a terrific sense of humor. I really enjoyed having her in my classes this year & I hope she'll be back next year. Have a great summer!

Mr. Hall's Summer

See ya Hall's Summer

Anne, Don't wear it out! Have you grown 4 inches (most of it legs) since 9th grade? Anne, Anne, Anne,
